

**Oilseeds Domestic Fundamentals:**

Soybean (plant delivery, Indore) witnessed mild gains tracking higher BMD CPO and overnight gains in CBOT soybeans. Severe dryness has affected parts of Malaysia, Thailand and Indonesia which is likely to hit the palm oil production. Reports of soybean crop loss in South America will further lend support to the soybean prices in near-term. While, mustard seed (Jaipur) improved tracking gains in Malaysian palm oil and good buying support from stockists and solvent extractors. Soybean arrivals in Madhya Pradesh were reported at 60,000 bags compared to 55,000 bags Tuesday. The RM seed arrivals in the Rajasthan mandis improved to 1.10 lakh bags to 95,000 bags on Tuesday.

**International Oilseeds Fundamentals:**

China is likely to see 5.05 million metric tons (tonnes) of soybean imports delivered to ports in February, slightly higher than the earlier forecast of 5 million tonnes, the Ministry of Commerce (MOC) said in a report released Monday.

**Outlook:**

Soybean (plant delivery) prices are expected to feature range-bound movement with firm bias. The Indore (Plant Delivery) prices are expected to witness 4210-4280 levels in the near term.
