AGRIWATCH

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) fell tracking weakness in CBOT soybean while mustard seed, Jaipur, edged-up on better buying Tuesday. Weakness in BMD CPO failed to influence the domestic RM seed benchmark. Soybean arrivals in Madhya Pradesh improved to 18,000 bags compared to 2,000 bags on Monday. All India arrivals of RM seed increased to 1.20 lakh bags compared to 1.05 lakh bags reported on Monday. Besides, RM seed arrivals in Rajasthan too improved to 0.60 lakh bags compared to 0.55 lakh bags on Monday.

International Oilseeds Fundamentals:

The international analyst, Lanworth has raised its forecast of the U.S. 2014 soybean yield to 46.7 bushels per acre from 46.4 previously. This translates to U.S. soybean production of 3.855 billion bushels, up from its previous estimate of 3.806 billion, issued on Aug. 11. USDA projected the soybean yield at 45.4 bushels per acre and production at 3.816 billion bushels in its August 11 report. Pro Farmer is already in US mid-west for crop tour.

Outlook:

Soybean (plant delivery) prices are expected to feature range bound movement tracking international oils and fats market. The Indore (Plant Delivery) prices are expected to be within the range of 3850-3950 levels in the near term.
