

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore), witnessed slight gains on recovery in the international oil complex and need based buying on Saturday. Gains in the crude oil prices and better buying at lower levels support the market sentiments. Major oilseed markets were closed owing to festivities.

International Oilseeds Fundamentals:

Brazilian soybean planting reached to 10 percent of the total estimated acreage for 2014-15, up 3 points from previous week. However, dry spells over key soybean producing regions of Brazil curb the planting pace. Last year same period farmers had planted 19 percent and 5 years average planting pace was 20 percent. USDA forecast soybean production in Brazil for 2014/15 at 94 million tons, up 7.3 million tons from last year - Agrural.

Outlook:

Soybean (plant delivery) prices are expected to gain on fresh buying at the current levels. However, gain will be limited on bearish global supply scenario. The Indore (Plant Delivery) prices are expected to be within the range of 2900-3000 levels in the near term.

Futures Market Closed on Saturday. Quotes updated as on 22.10.14
