Oilseed Daily Fundamental Report 31 October, 2014

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) and RM seed, benchmark Jaipur, continued uptrend on buying support and higher international oil and fats market Thursday. Continued gains in CBOT soybean and higher Malaysian palm oil remained supportive too. Soybean arrivals in Madhya Pradesh remained flat at 4.5 lakh bags compared to Wednesday's level. All India arrivals of RM seed increased to 1.15 lakh bags compared to 1.1 lakh bags on Wednesday's level. Besides, the arrivals of Rajasthan too increased to 65,000 bags compared to 60,000 bags on Wednesday.

International Oilseeds Fundamentals:

Brazilian soybean planting reached to 10 percent of the total estimated acreage for 2014-15, up 3 points from previous week. However, dry spells over key soybean producing regions of Brazil curb the planting pace. Last year same period farmers had planted 19 percent and 5 years average planting pace was 20 percent. USDA forecast soybean production in Brazil for 2014/15 at 94 million tons, up 7.3 million tons from last year - Agrural.

Outlook:

Soybean (plant delivery) prices are expected to gain on continued buying at the current levels. However, gain will be limited on bearish global supply scenario. The Indore (Plant Delivery) prices are expected to be within the range of 3250-3350 levels in the near term.
