

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) witnessed mild gains while RM seed fell due to rising new crop supply pressure and lower Malaysian palm oil Monday. Soybean arrivals in Madhya Pradesh were reported higher at 0.60 lakh bags compared to 0.55 lakh bags on Saturday. The all India arrivals of the RM seed increased to 2.0 lakh bags compared to 1.15 lakh bags on Saturday. Further, the arrivals in Rajasthan increased to 1.10 lakh bags compared to 0.75 lakh bags on Saturday.

International Oilseeds Fundamentals:

U.S. area under soybean in 2015 is forecast lower at 83.5 million acres, which is lower by 200,000 acres from last year, 2014. The forecast lend support to the international soy benchmark CBOT for short-term. Conab has cut trimmed its Brazilian forecast for the 2014/15 soybean crop, which is under harvest, to 94.6 million tonnes from its earlier estimate of 95.9 million tonnes. This is due to the decline in yield potential due to dry weather. The Conab also estimated Brazil's likely soybean shipments to 47.8 million tonnes, which lower from 49.6 million tonnes in January'15.

Outlook:

Soybean (plant delivery) prices are expected to remain weak under global pressure considering lower crude and higher soybean supply prospects. The Indore (Plant Delivery) prices are expected to be within the range of 3300 – 3400 levels in the near term.
