AGRIWATCH

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) declined tracking losses in CBOT soybeans while RM witnessed gains in tandem with BMD CPO Thursday. Lower crude and bearish global soy supply scenario continued to pressure the oils and fats market. The underlying fundamentals remain bearish for the market. Soybean arrivals in Madhya Pradesh improved to 0.75 lakh bags compared to 0.40 lakh bags on Wednesday. The all India arrivals of the RM seed fell to 2.50 lakh bags compared to 2.60 lakh bags on Wednesday. Further, the arrivals in Rajasthan too fell to 1.25 lakh bags compared to 1.4 lakh bags on Wednesday.

International Oilseeds Fundamentals:

Brazillian truck strike has ended and key highway in top soy state Mato Grosso opened after two weeks of protests. 500 trucks had arrive at Brazil's port of Paranagua where recent roadblocks depleted soy stocks. Brazil's soybean harvest had done over 18.5 percent of the total cultivated soybean area in the country, which represents a considerable delay by 12.5 percent from last year figures and historical five-year average, the harvest should be 23 percent in the same period reported Vintage Market & advice note.

Outlook:

Soybean (plant delivery) prices are expected to remain weak under global pressure considering lower crude and higher soybean supply prospects. The Indore (Plant Delivery) prices are expected to be within the range of 3280-3380 levels in the near term.
