Oilseed Daily Fundamental Report

13 March, 2015

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) fell on feeble buying in the cash market and weak global outlook Thursday. However, RM seed prices remained flat compared to Wednesday's level. More rains in Brazil is likely to hurt the ongoing soy harvesting in short-term, besides there is also a concern over calling trucker's strike in Brazil. The RM seed harvesting is gaining momentum and supplies are rising day-by-day. Soybean arrivals in Madhya Pradesh remained flat at 0.55 lakh bags compared to Wednesday's level. The all India arrivals of the RM seed increased to 3.7 lakh bags compared to 3.5 lakh bags on Wednesday. The seed arrivals in Rajasthan too increased to 2.15 lakh bags compared to 2.1 lakh bags on Wednesday.

International Oilseeds Fundamentals:

Conab – Brazil's government crop supply agency has trimmed its 2014/15 soybean production estimate to 93.3 million tonnes this week from 94.6 million tonnes in February slashing sown area and potential yield output. China imported 4.26 million tonnes of soybeans in February, down 38.1% from 6.88 million tonnes in January, as reported by the General Administration of Customs of China. China bought 230,000 tonnes of vegetable oils in February, down 48.9% from the previous month.

Outlook:

Soybean (plant delivery) prices are expected feature range bound movement with weak-bias due to global pressure considering lower crude and higher global soybean supply prospects. The Indore (Plant Delivery) prices are expected to be within the range of 3300-3400 levels in the near term.
