

# Oilseed Daily Fundamental Report

7 April, 2015

Oilseeds Domestic Fundamentals: Soybean (Plant delivery, Indore) and RM seed surged around 3% in cash and futures market on fresh buying fueled by dull trade in recent days owing to fiscal year closing. Besides, the oilseeds market got boost with the news that Saudi Arabia has raised prices for crude oil by \$1/barrel. Higher Malaysian palm oil and firm soy at e-CBOT at 4.30 pm lent additional support to the market. Soybean arrivals in Madhya Pradesh were reported at 40,000 bags Monday. The all India RM seed arrivals increased to 4.5 lakh bags compared to 2.6 lakh bags on Monday. The arrivals in Rajasthan increased to 2.6 lakh bags compared to 2.4 lakh bags Saturday.

#### International Oilseeds Fundamentals:

In the latest production estimates in April, Argentina's 2014/15 soybean production is estimated at 58.5 million tonnes, the Buenos Aires Grains Exchange said on 01 April'15, raising its previous estimate of 57 million tonnes considering higher yield. Informa Economics has forecasted 2014 Brazil soybean outturn at 93.0 million tonnes, up 500,000 from previous forecast-trade. Oil World has revised the global soybean production upwards to 312.8 Mn T for 2014/15. This is up sharply by 31.0 Mn T.

#### **Outlook:**

Soybean (plant delivery) prices are likely to feature gains on fresh buying, likely gains in international soy benchmark and expected gains in BMD CPO. The Indore (Plant Delivery) prices are expected to be within the range of 3490 -3600 levels in the near term.
