AGRIWATCH

Oilseeds Domestic Fundamentals: Soybean (Plant delivery, Indore) and RM seed, Jaipur, edged-lower on weak global cues Wednesday. Bearish global oilseeds supply scenario, Greek crisis and lower crude continued to pressure the market.

The soybean arrivals in Madhya Pradesh increased and were reported lower at 0.55 lakh bags compared to 0.50 lakh bags on Tuesday. All India arrivals in RM seed were reported slightly lower at 0.80 lakh bags compared to 0.85 lkah bags on Tuesday. In Rajasthan too the supplies fell to 40,000 bags compared to 45,000 bags on Tuesday. US Soybean planted area for 2015 is estimated at a record high 85.1 million acres, up 2% from last year. Area for harvest, at 84.4 million acres, is also up 2% from 2014 and will be record high, if realized. Record high planted acreage is estimated in Kentucky, Minnesota, Ohio, Pennsylvania, and Wisconsin. USDA will redo its fresh acreage survey in August.

International Oilseeds Fundamentals: US soybean planting is reported at 96% by 05 Jul which is lower than 5 year average of 100% and also lower compared to 100% during the same period last year. Soybean emergence is reported at 93% lower than 5 year average of 97% and which is also lower from 97% during the same period last year. Further, about 21% is blooming which is at par with the 5 year average and lower from 22% compared to last year. The crop is in 63% good to excellent against 72% during the same period last year. The factors have turned-up slightly bullish for the international soybean for short-term. Brazil shipped 9.81 million tonnes of soybeans in June, compared with 9.34 million tonnes in May and 6.89 million tonnes a year ago, the trade ministry reported.

Outlook: Soybean (plant delivery) prices are likely to feature range-bound movement in near-term. The Indore (Plant Delivery) prices are expected to be in the range of 3350 – 3450 levels in the near term.
