Oilseeds Domestic Fundamentals: Soybean (Plant delivery, Indore) fell on sluggish buying and RM seed (Jaipur) extended gains on better buying support in the cash market Friday.

Argentina's 2015/16 area under soybean is forecasted at 20.6 million hectares by the agriculture ministry, the first estimate of the season, in the monthly report.

However, Rosario Grain Exchange had estimated 20.5 million hectares which is higher than their previous season's estimate of 20.2 million hectares.

International Oilseeds Fundamentals: Mauricio Macri vows to cut export tax on soy from 35% to 30% in 2016, if elected. Argentina's soybean exporters are currently paying an export tax of 35% which is exceptionally higher. Argentina is expected to elect a new government this weekend which may change the tax structure. If materialized, the Argentina's soybean exports price will get slightly competitive to other exporting countries like Brazil and US.

Conab, the crop supply agency of Brazil's government has forecasted countries record 2015/16 soybean production between 100.1 million tonnes to 101.9 million which is higher than Conab's 2014/15 estimated outturn of 96.2 million tonnes.

Outlook: Soybean (plant delivery) prices are likely to feature gains on fresh buying interest in near-term. The Indore (Plant Delivery) prices are expected to be in the range of 3770 - 3850 levels in the near-term.
