

**Oilseeds Domestic Fundamentals:** Soybean (plant delivery, Indore) remained flat on steady demand while Rapeseed-mustard (Jaipur) posted gain on improved new crop buying by the solvent extractors.

Argentina's Agriculture Ministry has slashed country's 2016/17 soybean planting estimate to 19.45 million hectares from 19.8 million hectares estimated previously. Safras and Mercado has projected its Brazil's 2016/17 soybean production estimated at record 107.1 million tonnes up 10.2% from previous season. The rise in production is attributed to favourable weather which has boosted the yield potential mainly in Midwest and Southeast.

Rosario Grains Exchange has raised its Argentina's 2016/17 soybean production estimate to 54.5 million tonnes up from its previous forecast of 52.9 million citing higher yield potential.

**International Oilseeds Fundamentals:** Agroconsult has projected Brazil's 2016/17 soybean production at 107.8 million tonnes up from 105.3 million projected initially in February.

The agency has estimated Brazil's 2016/17 soy exports at 61.1 million tonnes. US soybean crushers crushed higher than the market expectations in January, third highest January crush on record, said National Oilseed Processors Association.

NOPA reported that its members have processed 160.621 million bushels during January, up from 150.453 million bushels during the corresponding period last year and also up from 160.176 million bushels in December 2016.

**Outlook:** Soybean (plant delivery) prices are likely feature range bound movement in near-term. The Indore (Plant Delivery) prices are expected to be in the range of 2,850 – 3,000 levels in the near-term.
