

**Oilseeds Domestic Fundamentals:** Soybean (plant delivery, Indore) noticed firm tone amid spillover support from soybean at CBOT and rapeseed-mustard (Condition, Jaipur) witnessed easy tone amid overall weakness in edible oils and weak tone of palm oil at BMD. All India soybean arrivals in the major mandis decreased to 85,000 bags compared to 273,000 bags compared to previous day. Further, the all India arrivals of the rapeseed-mustard remained steady at 130,000 bags compared to 140,000 bags compared to previous day.

India's soy meal export is likely to decline by a fifth in the current year 2017/18. Rally in local soybean prices and firmer rupee makes Indian soy meal unattractive in the global market. This is likely to help other major producers of soy meal like U.S., Argentina and Brazil. Rupee is at around 30 month's high and soybean prices in the domestic market have increased by nearly 15% to Rs. 3300/Qtl levels in the last two months.

**International Oilseeds Fundamentals:** According to Conab, Brazilian soybean output in 2017/18 has been increased by 1.2 MMT to 110.4 MMT in the latest monthly report compared to previous month's estimates. Output estimates are likely to increase in the forthcoming reports amid beneficial rains since early November in the growing regions.

According to a Farm Futures survey of 925 growers in US, soybean acreage is likely to remain unchanged at 90.1 million acres in 2018 compared to previous year.

According to the Buenos Aires Exchange, soybean acreage in Argentina could decline further amid planting delays on dry weather in the growing regions. Last week, the exchange had estimated soybean acreage at 18 million acres in 2017/18.

**Outlook:** Soybean (plant delivery) prices are likely feature range –bound to firm tone in near-term. The Indore (Plant Delivery) prices are expected to be in the range of 3250 – 3450 levels in the near-term.
