

### Oilseeds Domestic Fundamentals

- Oilseeds complex featured sideways to firm tone. Soybean prices closed up despite on lower arrivals as traders are very slow as of now. While, Mustard seed markets are showing firm trend amid good swing of arrivals. New crops arrivals are in good demand amongst traders. NCDEX Soybean prices are also ruling down. However, RMseed prices rose amid firm sentiments.
- Sale of rapeseed by NAFED is progressing at good pace. NAFED is currently holding 0.48 lakh tons of rapeseed. Stock of rapeseed with NCDEX is 0.02 lakh tons. Stocks with trade are less. Higher liquidation of rapeseed by NAFED is weighing on prices of rapeseed.
- Groundnut stocks with farmers and private traders were about 1.0 lakh tons while NAFED has 3.6 lakh tons of groundnut stock. So, total stock in NAFED is 10.40 lakh tons apart from additional stocks with trade and farmers. Farmers have around 2 lakh tons of groundnut stocks with factory is around 1 lakh tons. High stocks are weighing on prices of groundnut. Exports of groundnut is less due to higher prices of groundnut in domestic market and is diverted towards crushing thereby increasing supply of groundnut oil. Disparity in crush of groundnut on higher prices of groundnut will weaken groundnut demand. Crushers have lower stocks of groundnut and are not confident of prices and are active dependent on ready markets.
- As per Mustard Oil Producers Association of India, India crushed total 500,000 tonnes of Mustard seed in February 2019 with an increase of 33.3% from previous year record. Higher arrivals against dull meal exporters demand are the main reason to rise crushing operations. Overall, oilseed crushing of the country stood higher by 25% in Feb month 2019. Crushing is likely to rise in coming months due to higher crop estimates this year and peak arrival season. Mustard crop is mainly a Rabi oilseed, the sowing is done during Sep-Oct and start harvesting by February. New crop of mustard is recorded at 200,000 tonnes along with 60,000 tonnes of old crop in February 2019. Total mustard seed supply stood at 7.05 million tonnes during Mar 18 to Feb 19. Rajasthan, Uttar Pradesh, and combined Madhya Pradesh and Chhattisgarh have reported arrivals at 2.55 million tonnes, 1.25 million tonnes and 825,000 tonnes respectively during Mar 18 to Feb 19. Farmers, processors, stockiest and state-run agencies were maintaining total stocks at 200,000 tonne as on Feb 28, 2019. MOPA expects mustard crop output at 8.1 million tonnes in 2018/19 which is lower than farm ministry's second advance estimates of 8.4 million tonnes. Farm ministry quoted higher mustard acreage at 6.58 million hac. due to higher minimum support price, better realizations.

### Oilseeds International Fundamentals

- CBOT soybean future increased as China bought atleast 500,000 tonnes of U.S. Soybeans so far of this month.
- As per sources, China may import higher soybean to 85 million tonnes during 2018/19 crop year. It is higher from previous month forecast i.e. 83.65 million tonnes as China may suspend some canola imports from Canada. Canola, like soybeans, is crushed into meal to feed livestock. China, bought 39.5% lower soybean to 4.46 million tonnes in February 2019 compared to 7.37 million tonnes in January 2019.

**Outlook:** Soybean (plant delivery) prices are likely to trade in steady to weak tone on dull demand. The Indore (Plant Delivery) prices are expected to trade in the range of 3700 to 3850 in coming day. Mustard (42%) spot prices are expected to trade steady to higher side between 3900 and 4050 per quintal in ahead of a day.
