

### **Oilseeds Domestic Fundamentals**

- *Mostly firm trend is seen in Oilseeds complex in the spot markets today followed by firm miller's demand.*
- *As on 8<sup>th</sup> May 2019, Nafed procured total 20410.52 tonnes of Mustard seed R-19 including 13686.03 tonnes in Rajasthan, 5352.54 tonnes in MP & 1371.95 tonne in Gujarat states of India. It has procured total 5.09 lakh tonnes of mustard seed so far of this season.*
- *Nafed has restarted to sale groundnut seed in Gujarat state immediately after election on a higher demand of oil millers. Millers were suffering less stocks of seeds and getting costly seed from other private sources or merchants. In Gujarat, normally demand for groundnut (over other forms of edible oil) increased during April and May month as buyers buy good quantity to store for whole of the year. As on 3rd May, Nafed sold 1094 MT of K-18 groundnut seed in Gujarat state at sale rate between Rs. 4721 to 4801/ quintal. It has disposed total 15301 MT of groundnut seed so far and holds 4.17 lakh tonnes of remaining stocks.*
- *As per IMD, Widespread cool conditions between 1-2 °C below normal are expected across the northern half of India over the next 10 days, while the southern half remains near normal. Dry weather will be in place through the next 8 days, with the largest deficits (between 10-25 mm / 0.4 to 1 inches below normal) across northeastern coast. The only areas to receive notable rainfall totals are Upper Assam and Arunachal Pradesh in the Northeast, which could each receive up to 100 mm (~4 in) above normal in the next 10 days. However, there will be no more impact on Rabi crop harvesting like wheat and rapeseed as it is almost completed.*
- *USDA expects India's oilseeds production higher by 8% in 2019/20 in expectation of normal weather condition. Higher oilseeds supply may increase oilseeds meal production by 5.5% to 18 million tonnes. It projects oil meals exports at 3.2 million tonne with an increase of 10% in normal market condition and competitive pricing.*
- *According to NBHC (National Bulk Handling Corporation) Rabi crop recent report, crop size of Mustard seed is likely to go up by 0.30% than last estimate to 8.72 million metric tonne. The figure is also higher by 4.78% over last year record due to favorable weather condition resulting in higher yields in major producing states.*

### **Oilseeds International Fundamentals**

- *CBOT Soybean future prices closed remain on lower side yesterday after higher supplies and uncertainty about trade war between U.S. and China.*
- *As per sources, China bought higher soybean by 10.7% to 7.64 million tonnes in April 2019 due to shipment delayed from March compared to last year in the corresponding period of time. It imported total 24.39 million tonnes of Soybean during Jan-April 2019.*
- *As per NOPA (the national Oilseeds Processors Association), Its members crushed higher U.S. soybean to 170.01 million bushels in March 2019 as compared to 154.49 million bushels in February 2019. As a result, it held higher soyoil stock at 1.76 billion lbs at end of March 2019 against 1.752 billion lbs in previous month. It is also higher from eight months records.*
- *As per Germany's oil and protein plants association, farmers in U.S. may plant total soybean at 34.3M ha with a decline of 2M against previous year. Most of the farmers in U.S. holds an ample stock of soybean on farms at 36.6M tonnes as of 1<sup>st</sup> March 2019 which is higher by 50% during the same period of time in previous year.*
- **Outlook:** *Soybean (plant delivery) prices are likely to trade in steady to firm tone on good demand. The Indore (Plant Delivery) prices are expected to trade in the range of 3780 to 3850 in coming day. Mustard (42%) spot prices are also expected to trade steady to higher side between 3930 and 3940 per quintal in ahead of a day.*
