
Oilseeds Domestic Fundamental

Trading activities are closed in India as lock down has been imposed by the government to prevent the spread of COVID-19. As on 7th April 2020, total 5360 cases of coronavirus have been identified in India including 164 death cases and 468 recovered cases. Crushing of oilseeds has been re-started now however, millers are suffering from lack of labors, transportations issues and un-availability of raw materials on account of lock down. India will be lock down until 14th April 2020. However, rising confirmed cases of coronavirus are remain serious concern for India as a result lock down time period may be extended in some of sensitive states of India. NCDEX Soybean & RM Seed prices increased amid buyer's interests.

Farmers have completed mustard crop harvesting in Rajasthan states. The quality of seeds are good and likely to encourage millers to increase more crushing. Currently, farmers are not able to sell huge quantity in mandies due to lock down as a result storing in a local places and houses. In UP, recent rainfall has delayed mustard harvesting and farmers have harvested 50% crop so far. Heavy rainfall in UP may cause the stem rot disease and leave the plant wilted which may reduce 10 to 15% yield size compared to last season.

Agriwatch expects 7.21 million tonnes of Mustard crop for 2021-20 which 8.76% lower from 7.90 million tonnes as estimated for 2019-20. Yield size may decline 8.5% to 1036.88 Kg/Hac. against 1133 Kg/Hac in 2019-20 due to non-seasonal rainfall in Jan 2020 and March 2020. India received 46% excess rainfall during 1st March 2020 to 25th March 2020 compared to Normal rainfall which may damage seed quality and also delay harvesting of this season. Heavy Rainfall and hailstorm in early Jan month 2020 have affected standing mustard crops in Rajasthan, Western Uttar Pradesh and Southern Haryana states of India as a result the stem rot and white rust disease are seen at growth stage. Area of India is reported 0.29% lower to 6.95 million Hectares compared to 6.97 million hectares in 2019-20 as mustard area have shifted to Wheat, garlic and Barley crop in some growing belt of India.

Sopa has revised Soybean Kharif production for 2019 from 89.94 lakh tonnes to 93.06 lakh tonnes after its recent field survey in Maharashtra, Madhya Pradesh and Rajasthan states. The revision is only for Maharashtra from 36.295 lakh tonne to 39.416 lakh tonne as sowing area stood higher side at 37.36 lakh ha. in 2019 against 36.39 lakh ha. in 2018. India may harvest 14.85 per cent lower Soybean crop at 93.06 lakh tonnes in 2019 against 109.3 lakh tonnes in 2018. The major Soybean producing states like Gujarat, Karnataka, Madhya Pradesh may harvest lower Soya crop by 30 per cent to 0.86 lakh tonnes, 7.1 per cent to 2.69 lakh tonnes, 31.1 per cent to 40.10 lakh tonnes respectively against last year record. Sopa has increased soymeal consumption at 50 lakh tones higher from 47.5 lakh tonnes from its earlier estimates.

Oilseeds International Fundamentals

CBOT prices declined under coronavirus pandemic in the world which may remain disturb supply and demand of soybean.

As per Agrural , Brazil have harvested total 83% of its soybean planted area during 3rd April 2020 which is lower from 84% in 2019 season however higher from five year average for this time in the season. It expects 123.8 million tonnes of this season lower from 124.3 million tonnes from its earlier estimates on account of drought in the country.

As per Riferitiv Agriculture Report, Brazil shipped total 12.6 million tonnes in March 2020 which is 35% above last month and also 43% higher from last five years average March exports as supported by robust demand of China. China bought total 7.8 million tonnes in March 2020 which is higher by 2% from last year record i.e. 5.8 million tonnes in the corresponding period of time.

As per sources, European Union bought total 10.93 million tonnes of Soybean till April 5, 2020 (season started on July 1) which is lower by 3% from last year record in Mar 31, 2020. EU soymeal imports had reached higher by 2% to 13.64 million tonnes against the year-earlier period, while Rapeseed imports went up by 45% to 4.93 million tonnes against last year record. However, palm oil imports stood down by 16% to 4.21 million tonnes.

Outlook: No major trading activities until 14th April 2020 due to lock down condition in India.
