

**Oilseeds Domestic Fundamentals:** Most of the key oilseeds' cash markets continued to remain closed due to the nationwide lockdown amidst COVID-19. No trade activity was reported in the benchmark soybean Indore market and other bean markets of Rajasthan like Kota, Bundi and Baran. Rapeseed-Mustard (Jaipur, condition) price slipped on weak buying and new crop arrivals, however, active stockists and the millers will limit any sharp fall. Soybean (Nagpur Plant deliver basis) was quoted flat on steady buying activity.

In the weekly USDA crop progress report released on 04 May 2020; The US Soybeans planting is reported at 23% up from 5% same period last year and 11% from 5 year average.

Brazilian soybean shipments in April reached 16.3 million tonnes, it is an all-time record for a single month and an increase from 9.4 million tonnes in corresponding period last year, according to average daily export data released by the government. The previous record was 12.35 million tonnes, set in May 2018. Brazil, had exported 11.64 million tonnes of soybeans in March, according to government data. Brazil's soybean shipment volume during 1Q20 was the highest on record, up by 13.5% from 1Q19. About 75% (or 13.3 million tonnes) of the Brazilian exports during the first quarter of 2020 was headed to China.

**International Oilseeds Fundamentals:** Rosario Grains Exchange have to reduce Argentine soybean crop estimates 50.5 million tonnes from its previous forecast of 51.5 million tonnes. This was after soybean crop was damaged by pockets of dry, hot weather in March, when harvesting was just hitting the ground.

**Outlook:** Soybean (plant delivery, Nagpur) prices are likely witness range bound movement with weak-bias in near-term. The Nagpur (Plant Delivery) prices are expected to be in the range of 4050 – 4100 levels in the near-term.
