

Oilseeds Domestic Fundamentals: Soybean and rapeseed-mustard extended gains on good buying support in the market. The India's rapeseed-mustard planting is underway, in the last official planting report the planting under the seed is reported up by 9% at 46.82 lha compared to 43.00 lha during the corresponding period of last year. We expect India's area under rapeseed-mustard to increase this year by about 10% after the seed prices sharply rose this year. India's 2019-20 area under rapeseed-mustard stood at 69.51 lakh hectares. Overall, rapeseed-mustard sentiments are still strong on better demand to cater improved rapeseed-mustard oil demand followed by COVID and winter rapeseed oil demand.

In the November'20 report, the USDA has slashed US 2020/21 soybean production to 113.5 million tonnes from 116.1 million tonnes forecast in October'20 report. US soybean exports may surge to 46-48 Mn T in Sept/Feb 2020/21. Huge exports to China will tighten supplies for the rest of the world.

USDA attache has projected China's 2020/21 soybean imports at 95 million tonnes which is lower than 98.5 million tonnes imported in 2019/20 by the country. The reason cited is due to the higher beginning stocks in the new marketing season following a buying spree in 2019/20.

International Oilseeds Fundamentals: AgRural has estimated Brazil's 2020/21 soybean crop at 132 million tonnes, if realised, it will be record production.

Outlook: Soybean (plant delivery, Indore) prices are likely to feature range-bound movement with weak bias on increasing arrivals in near-term. The Indore (Plant Delivery) prices are expected to be in the range of 4550 – 4600 levels in the near-term.
