

Oilseeds Domestic Fundamentals: Soybean Indore plant prices remained steady despite tight supply as compared to previous day in Madhya Pradesh. However, In Jaipur, RM seed prices went down despite tight supply.

SOPA- Crop condition of Maharashtra is better than that of Madhya Pradesh. "There are reports of crop damage due to moisture stress in many parts of Madhya Pradesh but, as of now, Maharashtra's crop condition is good. However, a lot depends on the progress of monsoon

Indian government is set to launch an oil seeds mission owing to the recurring instances over decades of surging edible oil prices stoking food inflation and high imports of these items straining the country's current account. The mission will encompass investments of Rs 11000 crore in the cooking oil eco system.

As per estimates approximately 75-80% RM Seed crushing have been completed while more than 90% soybean crushing have been completed.

| Soybean sowing As On 06 Aug (Area In lakh Ha) | | | | | |
|---|-------------|---------|---------|----------|-----------------------------|
| | Normal Area | 2019-20 | 2020-21 | % Change | % of total sowing (2020-21) |

International Oilseeds Fundamentals:

China's July soybean imports fall on year on weak crushing margins.

The world's top buyer of the oilseed brought in 8.67 million tonnes of soybeans in July, down 14.1% from 10.09 million tonnes the previous year.

Brazilian soybean exports reached 11.1 mmt in Jun 2021, 13% down from Jun 2020. Accum Jan-Jun 2021 at 59.4 mmt vs 58.8 mmt a year ago.

In recent USDA Aug report, USDA slashed 2-million-ton in U.S. 2021-22 soybean production to 118 million MT, However Argentina and Brazil soybean 2021-22 production figures remain unchanged to 52 and 144 million metric tons respectively.

China's June soybean imports jump 11.6% from May on surging demand.

- 10.7 mmt June (+11.6% mom) (-4% yoy)
- Jan-Jun totals 49 mmt (+9% yoy)
- Recovery from ASF boosting soy demand Pig herd to cross 440M heads in 2021 (+22% yoy)

NOPA crush increased this month but was below expectations at 155.105 mln bushels. Estimates were between 156.2 and 164 million bushels, with the average at 159.062. This crush is up 2% from last month, but a 10% decrease from last year.

As per recent USDA Aug'21 report, Soybean production in the world is likely to increase to 383.63 million tonnes in next season (September- 2021- August 2020) in expectation of higher crop size in US and India. Total crop size in India may stand higher by 750,000 tonnes to 11.2 Million tonnes against 10.45 Million tonnes in this season. Higher soybean prices in this season will encourage farmers in India to cover higher soybean area.

As of July 29, Ukrainian farmers had completed the harvest on 568,500 ha, 56.5% of the expected area, and gathered 1.48 million mt of rapeseed. The Ukrainian export potential of rapeseeds this season, according to USDA expectations, will increase to 2.7 million mt, which is 10.7% higher than the 2020/21 season, but below the record of 3 million mt in the 2019/20 season.

In the Aug'21 report, the USDA has kept India's 2021/22 rapeseed production estimates unchanged at 8.5 million tonnes compared to previous month. However, Canada's rapeseed production estimates eased to 16 million tonnes as compared to 20.20 million tonnes last month. Canadian canola production is lowered because as early-season drought conditions impact yields and offset an increase to area. Further, EU production estimates remain unchanged to 17.00 million tonnes million tonnes last month and for China, the estimates remain unchanged to 14.00 million tonnes. The global 2020/21 rapeseed production estimate decreased to 69.97 million tonnes vs 74.14 million tonnes in the previous month. World 2021/22 rapeseed meal production estimate eased at 39.69 million tonnes vs 41.29 million tonnes in its previous estimate.

Officials in Argentina's have ordered obligatory talks amid protesting port workers and companies to try and end a ports obstruction that is preventing grain shipments, Workers represented by the UOCRA union claim that construction companies serving agro-export companies pay higher wages at the port facilities. Argentina is the world's top exporter of soybean meal and a major international soybean.

The Argentina government approved a measure allowing a reduction in the amount of soy-based biofuel to be mixed into diesel. The new law will likely show a minimum use of biodiesel of 5%, and could drop to 3%, from a 10% blend previous. Lowering the blend rate is likely to spark a jump in soybean oil exports.

The Brazilian government raised the mandatory blend of biodiesel into diesel to 12% from 10%, below this year's target of 13% in a bid to rein in fuel inflation amid high soybean prices.

The heavy rains that pounded Henan province in central China will cause damage to some hog farms in the major pork-producing region and potentially trigger fresh cases of African swine fever.

Canola futures soared recent week because of heatwave looked to affect harvest scenario for canola in Canada. High temperature forecast in coming weeks may cause the canola flowers to drop prematurely, lead to drop in yield. Canadian farmers planted an estimated 22.5 million acres of canola for the 2021-22 crop year, the highest since 2018. This is up from the April forecast of 21.5 million acres and up 8.2% from last year.

Outlook: Soybean (plant delivery, Indore) prices are likely to remain firm, however arrival has gone down at all trading markets, inventory remain tight in the country amid tight global dynamics. The prices are expected to be in the range of 7,500 – 10,000/mt. levels in the near-term.
