Soybean

- SEBI has banned futures and options trading in soybean, refined soy oil and NCDEX SOYDEX for one year with effect from beginning of day 20 Dec'21.
- According to Soybean Possessor Association of India (SOPA) November'21 Soy crush stood at 7 lakh tones Vs 6 lakh tonnes in Oct'21. Additionally, Oct'21 to Nov'21 soy crush stood at 13 lakh tonnes against 21 lakh tonnes last year same period.
- According to Soybean Possessor Association of India (SOPA) November'21 soybean arrival stood at 14 lakh tonnes Vs 15 lakh tonnes in Oct'21. Additionally, Oct'21 to Nov'21 soybean arrival stood at 29 lakh tonnes Vs 37 lakh tonnes last year same period.
- It is inferred from SOPA data that arrivals are slower as farmers are expecting better prices for soybean, but on the other hand industry is unable to find sufficient demand for soybean deoiled cake even at current prices. This has resulted into prices of soybean DOC as well as those of soybean declining despite of low arrivals.
- As per Agriwatch estimates, total availability of soymeal in the country for MY 2021-22 is likely to be 88.80 lakh tonnes. Annual soymeal consumption stands between 60-65 lakh tonnes while 15-18 lakh tonnes soymeal is exported annually. So, demand and supply of soymeal in the country seems balanced.
- Despite request from poultry industry, Government of India has no current plans to allow imports of GM soymeal beyond the past deadline of 31 Oct 2021. Traders managed to import 6.5 lakh tonnes GM soymeal against 12 lakh tonnes permitted by the government within the stipulated period.
- Soybean Processors Association of India has strongly opposed extension of GM soymeal import date up to March 31, 2022 citing comfortable demand and supply situation in the country as domestic soybean production has increased by 15%. This year 5-6 lakh tonnes of soymeal have been already imported. However, Poultry Breeders' Association, has demanded from GOI for extension of import deadline from 31st Jan to 31st march so as to import the balance quantity from the 12-lakh tone quota.
- As per sources, farmers are willing to hold more soy produce in anticipation of higher prices in future as a result sale to soy processors remained low, October crush total was 37% below last years, according to SOPA and is expected to remain below normal in November. However, declining imports of edible oil may rebound crushing demand of soybean.
