

### Oilseeds Domestic Fundamentals:

#### Today's Update-

Today in Indore, soybean plant prices went down by 2.05% at Rs. 7,150/qtl. In other cash markets too, soybean traded with weak sentiments. Soybean (plant delivery, Indore) prices are expected to trade with weak bias on the back of Soymeal import in the range of 7100-7300/qtl levels in the near-term.

#### Weather Updates-

According to Skymet, the onset of monsoon over Kerala this year is likely to be on May 26, with a model error of +/- 3 days. Heavy to very heavy rainfall with extremely heavy rainfall at isolated places very likely over meghalaya. Heavy to very heavy rainfall at isolated places over sub himalayan west bengal-sikkim, Arunachal pradesh, Assam kerala-Mahe and Tamilnadu-Puducherry-karaikal.

SW monsoon has arrived over the Andaman sea on 16th May'22, nearly a week prior to its scheduled time. Conditions are favorable for further advancement over entire Andaman Sea and more parts of South and Central Bay of Bengal. Monsoon is heading towards mainland Kerala around 26th May, before the normal date of 01st June. This is likely to be the earliest onset since 2009, when it struck the Kerala coast on 23rd May. Incidentally, year 2009 was an El Nino year and the monsoon hit hard to result severe drought over Indian Sub-Continent.

51-75	Fairly Widespread (FWS/ Many Places)	1-25	Isolated (ISOL)
No Rain	Dry		

### International:

According to USDA latest report, US Soybean planting progress reached at 30% vs 58% last year and 39% five-year average.

According to General Administration of Customs, China's soybean imports from Brazil in April surged from the previous month with the arrival of delayed cargoes. China, the world's top importer of soybeans, received 6.3 million tonnes of the oilseed from Brazil in April, up 120% from 2.87 million tonnes in March.

### RM seed

#### Today's Update-

Today Jaipur RM seed prices went marginally up by 0.7% at Rs. 7,225/qtl. However, in other cash markets traded with firm sentiments on good demand at current level. RM seed prices are expected to trade with weak bias tracking palm oil export ban revoke by Indonesia in the range of 7,000-7200 in near term.

#### Previous Updates-

Indonesian farmers protested to uplift palm oil export ban as their income slashed amid low buying from mills. According to Indonesia smallholder farmers' group APAKSINDO, 25% mills have stopped procuring palm fruits from farmers due to lack of storage capacity. Farmers are in dilemma, whether to harvest fruits to render damage due to low shelf life or to leave it on trees, which will harm palm trees.

Pressure of farmers' protest led the Indonesian Government to uplift ban of palm oil export even before the prices hit the 14,000 Rupiah level. President Jokowi, announced to uplift the palm oil export ban from 23rd of May onwards.

<b>USDA May'22 Rapeseed Production estimate (In MMT)</b>		
	<b><u>2021-22</u></b>	<b><u>2022-23</u></b>
Canada	12.6	20
Australia	6.35	4.7
USA	1.24	1.78
China	14	14.7
European Union	17.26	18.5

Ukraine	<b>3.15</b>	<b>3.2</b>
India	<b>10.8</b>	<b>11</b>
Global	<b>71.17</b>	<b>80.3</b>

- RM seed crushers are facing challenges as farmers hold back anticipating higher price which has resulted into almost 45% decline in market arrivals in April'22 compared with March which is affecting the crushing of the oil seed.
- Currently, Mustard is trading at three months high, tracking Palm oil export ban by Indonesia coupled with shrinking arrivals. The premium of mustard oil over CPO has been reversed to discount due to low palm oil supply side. Currently, CPO to Mustard spread has become positive at INR 70-100/ 10 Kg. This is likely to push the demand for Mustard oil, as it's been seen that at palm oil demand at higher prices is usually substituted with comparatively discounted oils. It is inferred that discounted mustard oil price will boost crushing and so the RM seed demand which is likely to underpin RM seed prices.
- Statistics Canada on Tuesday pegged Canada's 2022 canola plantings at 20.9 million acres, down 7% from last year, 6% below the five-year average and lighter than analyst expectations of 22.1 million.
- According to of Agriculture and Agri-Food Canada's (AAFC), Demand for Canadian Canola remains firm on a strong world oilseed crush and high prices for competing oilseeds and vegetable oils. Disruption of Black Sea exports of sunflower seed oil as a result of the Russian invasion of Ukraine is tightening world supplies and supporting world prices. Domestically, processing of canola is estimated to fall to 8.5 Mt, a drop of 18% from last year, while exports are expected to fall by 49% to 5.4 Mt, as commercial buyers outbid exporters for the tight supplies. For the crop year, the major importers of Canadian canola to-date are China, Japan, Mexico and the European Union.
- In order to check blending of mustard oil with other edible oil, FSSAI has directed state food safety officials. And has also sought an action taken report from the states by May 15, 2022, and added that the enforcement department should be informed at regular intervals about the same.
- USDA, in its April'22 reports, kept India's 2021-22 production estimate at 108 lakh tonnes, crushing estimate at 96.50 lakh tonne as compared to 75 lakh tonnes.

#### **Groundnut:**

Rajkot Groundnut bold prices continued to trade with firm bias on good domestic demand amid tight substitute oils. However, there is sluggish demand this year on high freight charges to the potential destinations. Rajkot groundnut bold average prices is likely to trade with firm bias in the range of INR 5,800-6,100/Qtl.
