

Oilseeds Domestic Fundamentals:
Today's Update-

Today in Indore, soybean plant prices went up by 6.60% to Rs. 5,650/qtl. In other cash market too, soybean traded with firm bias on good demand at lower level and shrink in arrivals. Soybean (plant delivery, Indore) prices are expected to trade with weak bias in the range of 5,300-5,700/qtl levels in the near-term tracking soy meal import and weak demand from crushers on squeeze in crush margin and high ending stock.

According to SOPA, India's Oct-Jul soy arrivals fell to 82 Lakh tonnes from 90.25 Lakh tonnes year ago, crushing shrank to 67.50 Lakh tonnes from 87.50 Lakh tonnes year ago while stocks with millers, traders, farmers swell to 40.52 Lakh tonnes from only 8.82 Lakh tonnes a year ago. Low Soymeal export demand and squeeze in crush margin resulted into low crushing.

Soybean Sowing Updates: From 1st June'22- 28th Aug'22, cumulative rainfall recorded above average by 20% in Maharashtra, 25% in MP, in Rajasthan cumulative rainfall remained above average at 49%. As on 19th Aug'22 All India Kharif soybean sowing progress is down by 0.6% to 119.83 Lakh hectare as compared to 120.56 Lakh hectare last year in the same period. Agriwatch expects soybean acreage to decline by 5-8% amid acreage shift to cotton and Maize.

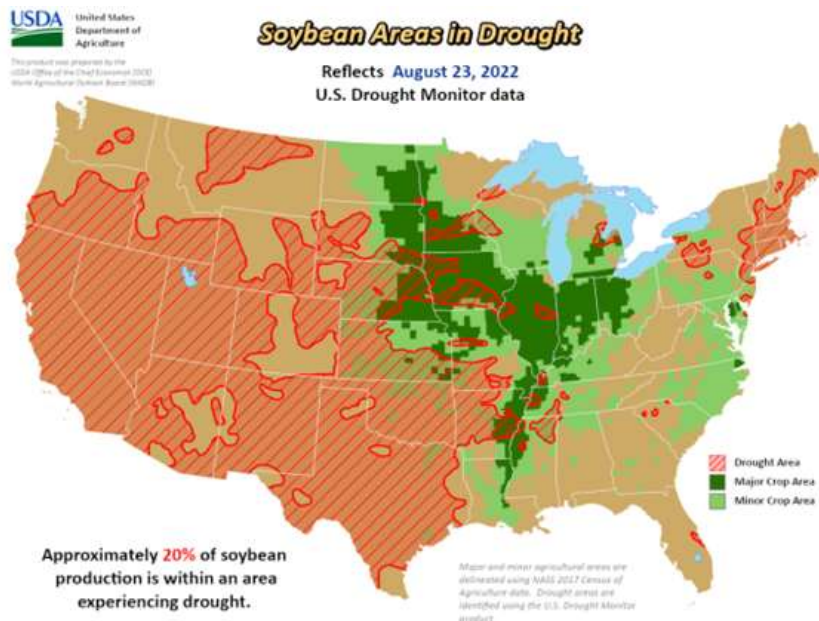

State wise Soybean sowing progress as on 26th Aug'22 (Lakh Ha)				
State	2022	2021	% Change	Cumulative Rainfall Departure (%) 1st June to 28th Aug'22
Maharashtra	48.45	45.87	6%	20%
Madhya Pradesh	50.05	55.13	9%	25%
Rajasthan	11.51	10.63	8%	49%
Karnataka	4.36	3.83	14%	31%
Telangana.	1.60	1.41	13%	51%
Others	3.86	3.69	5%	
Total	119.83	120.56	-0.6%	

International market update:

Brazil's food supply and statistics agency CONAB said on Wednesday that Brazil's 2022-23 Soybean crop production to grow by 21% to a record 150.36 million tonnes.

Currently, 20% of the Soybean production is within an area experiencing drought as compared to 24% previous week.

According to USDA's latest report, 3% of Soybean crop is in very poor condition, unchanged as compared to previous week, 9% is in poor condition Vs 8% previous week, fair condition remained unchanged at 30% as compared to previous week, 48% in good condition Vs 49% in previous week and 10% in excellent condition, unchanged as compared to previous week.

RM seed

Today's Update-

Today Jaipur RM seed prices remained stable at Rs. 6,700/ql. amid subdued demand in the cash market. In other market, RM seed traded with mixed bias. In Newai, Rajasthan most of the expellers are shut and only kachhi ghani is operational amid disparity in crushing. Mustard is currently premium over competing oils such as soy oil and CPO. Hence, there is weak demand of Mustard in the market and has kept RM seed prices under pressure. RM seed prices are expected to trade with weak bias in the range of 6,600-6800 in near term tracking weak demand from crushers.

International:

According to USDA latest production estimates, global canola production was increased by 14% from 72.31 MMT last year to 82.48 MMT this year due to increased output from Canada, Russia, USA and UK on higher yields resulting from favourable weather conditions.

USDA Global Rapeseed/ Canola Balance sheet

Previous Updates-

For 2022-23, the area seeded to canola is expected to decrease by 7% to 8.5 million hectares (Mha) based on Statistics Canada's Seeding Intentions Survey.

Statistics Canada has pegged Canada's 2022 canola plantings at 20.9 million acres, down 7% from last year, 6% below the five-year average and lighter than analyst expectations of 22.1 million.

According to of Agriculture and Agri-Food Canada's (AAFC), Demand for Canadian Canola remains firm on a strong world oilseed crush and high prices for competing oilseeds and vegetable oils. Disruption of Black Sea exports of sunflower seed oil as a result of the Russian invasion of Ukraine is tightening world supplies and supporting world prices. Domestically, the processing of canola is estimated to fall to 8.5 Mt, a drop of 18% from last year, while exports are expected to fall by 49% to 5.4 Mt, as commercial buyers outbid exporters for the tight supplies. For the crop year, the major importers of Canadian canola to-date are China, Japan, Mexico and the European Union.

Groundnut:

Low ending stock, lag in sowing progress, good domestic groundnut oil demand and rebound in groundnut oil export demand has kept Groundnut bold 60/70 prices elevated. 60/70 Groundnut bold average prices are likely to trade with firm bias in the range of INR 9,800-10,500/Qtl. in the short run.

As on 26th Aug'22 All India Kharif Groundnut sowing progress is lagging by 7% to 44.75 Lakh hectare as compared to 48.35 Lakh hectare last year in the same period. From 1st 1st June'22 to 29th Aug'22 cumulative rainfall departure recorded up by 33% in Gujarat, 48% in Rajasthan, 31% in Karnataka and 15% in

Statewise Groundnut sowing progress as on 26th Aug'22 (Lakh Ha)				
	2022	2021	% Change	Cumulative Rainfall Departure (%) 1st June to 29th Aug'22
Gujarat	17.01	19.10	-11%	33%
Rajasthan	7.90	7.77	2%	48%
Karnataka	3.65	4.53	-19%	31%
Andhra Pradesh	5.26	6.16	-13%	15%
Others	10.94	10.80	1%	
Total	44.75	48.35	-7%	

Andhra Pradesh. Agriwatch expects Groundnut 2022-23 Kharif sowing acreage is likely to decline by 8-12%. Acreage is likely to shift to cotton on lucrative prices.
