Aggressive hoarding pushes Groundnut seed and oil prices up after the abolition of the stock limit

As per the market sources, Stockiest are aggressively hoarding Groundnut (GN) seeds after the abolition of the stock limit on oilseeds and edible oils. GN seed prices are trading near 3 weeks high above Rs 6200/QTL. The revival of export demand from China in November pushed GN oil and seed prices significantly up. GN seed daily average prices for December at the Rajkot market witnessed a jump in prices by 7% from the low of Rs 5872/QTL to a high of Rs 6935/QTL, which closed at Rs 6300/QTL. GN oil in the Rajkot market witnessed a hike in prices by 6.77% from Rs 1500 to Rs 1600/10 Kg. However, the surge in covid cases in China again pushed for covid restrictions which would impact the export demand from India as well. At present, India is exporting GN seed to Bangladesh and South East Asian countries. Crushing of GN seed turned to disparity as seed prices shot up, while oil prices are gradually rising amid weak GN oil export demand due to covid. For the long term, GN oil and seed market is anticipated to be bullish as GN Kharif production is down due to low acreage and lower yield.

GN oil exports in November'22 jumped up sharply as China's demand for Indian groundnut oil revives. Exports in November stood at 24,914.43 Tonnes compared to the export of 3,952.90 Tonnes in previous month. China's export demand made 97.66% of the total exports at 24,331.69 tonnes.
