

## Onion Fundamentals:

- Minimum Export Price (MEP) on onion has removed because of sharp reduction in onion prices and to boost onion export.
- As per IBIS (International Business Information System), approximately 98503 tons of processed and fresh onion has been exported in month of February.
- Across the country, prices of onion have increased in almost all the producing regions because of lower interest shown by farmers in harvesting onion crop due to lower prices which supported the prices as supply was slightly tight.
- According to sources, approximately 550 containers are being exported to Middle East and srilanka on a weekly basis from Mumbai port.
