

## Onion Fundamentals:

- Total rabi onion production is expected to be in the range of 95-100 lakh tons. Onion sowing and production prospects in next Kharif season will build the sentiment further.
- Average yield in Maharashtra is estimated to be near 13-14 ton/ha after considering crop damage.
- Storage in Maharashtra will be clear by end of May month as farmers were not ready to store much at this time due to higher water content and upper layer of onion bulb being damaged.
- In Karnataka, Gujarat and other smaller states production is higher this year. Lower production in Maharashtra seems to be compensated by higher supply from other major states

## Onion wholesale Prices & Arrivals in Producing & Consumption Centers
