

Onion Fundamentals:

- In Karnataka, kharif sowing has started and so far approximately 3 % of total targeted area has been sown.
- In Nashik, Malegaon Tehsil onion crop has affected a lot because here 80 % of crop is grown in Rabi and rest 20% in Unhali. Loss in Rabi crop was due to hailstorms and rains.
- In Niphad Tehsil of Nasik, 70% of onion is grown in unhali season and 30% onion in Rabi season. According to sources, onion is stored higher than last year but crop is expected to spoil soon because of higher water content in it.
- In benchmark market of Lasalgaon, model prices reported Rs.1000/- per quintal which is approximately 1% lower than previous week. Arrivals are also similar to last week which suggests that market is stable and may remain firm ahead.
