

Onion Fundamentals:

- In Bangalore, Onion is arriving in market from local region (ChitraDurga and Bijapur District) and Maharashtra which are contributing approximately 40% and 60% respectively.
- In M.P, rabi onion harvesting is expected to be in peak after 1st week of April. In M.P, rabi area is approximately 15% lower compared to previous year as per our primary survey.
- In Maharashtra, approximately 20% crop loss is expected in Maharashtra due to rains and hailstorms in month of March. Rabi onion yield is expected to be 16 ton/Ha.
- Across the country onion prices have dropped down in onion because of arrival of Rabi onion from producing regions. The other reason is damaged crop from Maharashtra arriving in market due to rains and hailstorms.

Onion wholesale Prices & Arrivals in Producing & Consumption Centers
