

Onion Fundamentals:

- Current year as per Agriwatch estimate Rabi onion production was between 95-100 lakh tons which was similar to last year after considering crop damage in Maharashtra due to unseasonal rains and hailstorms.
- According to trade sources in Maharashtra, shelf life of onion has reduced to 3-4 months this year from 6-7 months due to rains and hailstorms during harvesting time.
- Onion prices are comparatively lower than last year in both wholesale and retail market because of crop damaged during harvesting time in producing regions.
- In Bangalore, onion is arriving in market from Local region and Maharashtra which are contributing approximately 40% and 60% respectively.

Onion wholesale Prices & Arrivals in Producing & Consumption Centers
