

## Onion Fundamentals:

- In Sahajapur (M.P), rabi onion yield has declined this year to 42 quintal /bigha from 47 quintal/ bigha last year due to unseasonal rains and Hailstorms.
- According to trade sources in Maharashtra, shelf life of onion has reduced to 3-4 months this year from 6-7 months due to rains and hailstorms during harvesting time.
- Onion prices are comparatively higher than last year in both wholesale and retail market because of crop damaged during harvesting time in producing regions.
- In Maharashtra, kharif onion transplanting may decrease due to delay in monsoon. But if monsoon is timely and proper kharif area may increase due to higher prices this year.

## Onion wholesale Prices & Arrivals in Producing & Consumption Centers
