

## Onion Fundamentals:

- In Delhi, modal onion prices are expected to be in the range of Rs 1700 to Rs 2000/ quintal due to lower arrivals in market and expectation of lower crop in kharif season.
- In Karnataka, kharif sowing is in progress. So far, 56266 hectares of area is sown compared to last year's 36663 hectares as on 13-07-2015. Fresh crop has started arriving in market in smaller quantity.
- In Andhra Pradesh, Kharif sowing is in progress. 8000 hectares onion has sown as compared to last year's 13117 hectares during same time. lower sowing is due to lower rainfall in producing districts.
- In Kharif producing regions, if rainfall in coming weeks doesn't improve it may put an impact on growing crop and lead to lower production and higher prices ahead.

## Onion wholesale Prices & Arrivals in Producing & Consumption Centers
