

## Onion Fundamentals:

- In Delhi, maximum onion is arriving in market from Rajasthan, M.P and smaller quantity from Maharashtra and Gujarat.
- In Maharashtra, kharif area is estimated to be lower than last year because of current prevailing lower prices of onion which led farmers to sow lesser crop. Kharif onion crop area has mainly declined in Ahmednagar, Aurangabad, Osmanabad and Beed.
- In A.P, as on 31.8.2016 normal sown area is 22298 hectares of the 28003 ha targeted area. So far 24464 ha of area has been sown compared to 24278ha in corresponding period of 2015.
- In Karnataka, as on 29.8.2016 so far approximately 100881 hectares of kharif area has been sown compared to 94791.9 hectares of area in corresponding period of 2015.
- Across the country prices of onion are expected to trade range bound only because of higher onion stocks available in market because of higher Rabi production this year.

## Onion wholesale Prices & Arrivals in Producing & Consumption Centers
