

Potato Fundamentals:

- In Agra (U.P) mandal, potato crop harvesting is expected to be less by 15-20% ahead though the area is similar to last year. The reason is farmer's harvested premature crop when West Bengal Government seized the borders in addition to fetch higher prices.
- According to trade sources, few parts of Farrukhabad district have been affected by Blight disease.
- In Delhi, modal prices of potatoes have dropped down to Rs 700-Rs 900/ quintal due to higher arrivals from producing regions.
- According to sources, potato in West Bengal has affected from "Blight" disease mainly in Mignapur and Bankura regions is now under control because of appropriate weather conditions.
