

Potato Fundamentals:

- All India potato production could be in the range of 40-42 million ton against last year's estimate of 45 million tons. This is mainly due to crop damage in UP because of unseasonal rains and blight disease in west Bengal.
- In Khandauli (Agra), modal prices are hovering in the range of Rs 1450/ quintal compared to last year price of Rs 1050/ quintal during same time. The reason for higher prices is due to less storage in cold stores.
- In West Bengal, cold storages are filled with approximately 52.32 lakh of the total capacity which is nearly 60.84 lakh ton.
- In West Bengal, approximately 50% of the Cold storages have opened and expected that rest of the cold storages will open fully after 16 May only as elections result will be declared by this time.
