

### Potato Fundamentals:

- In U.P, fresh crop (Premature crop) has started arriving in market from different parts of U.P which has led sharp decline in potato prices.
- In West Bengal, local crop has started arriving in market and expected to pick up pace after mid January for purpose of trading to other states.
- In M.P, rabi acreage is estimated to be approximately 100000 hectares which 2 % higher than last year's area.
- All India potato arrival in December month is approximately 2% lower compared to previous year during same time. Continuous rains in producing regions constraint supplies.
