

Potato Fundamentals:

- In Delhi, modal prices are trading in a range of Rs 1300/ quintal compared to last year price of Rs 2400/ quintal during same time. Fresh crop from Punjab and Himanchal Pradesh are fetching higher prices.
- According to trade sources, fresh crop from Punjab is expected to arrive in market full fledge after mid November. Though smaller quantity is already arriving in market.
- In West Bengal, prices have surged by Rs 150/ quintal and release of potato was higher because of lower supply from U.P to T.N, A.P and Chattisgarh which has pushed up the supply of potatoes from West Bengal.
- In U.P, approximately 72% potato has been released from the cold storages compared to last year release which is almost similar. Sowing was delayed in few of the regions which may support the prices of remaining potatoes in the cold storages.

Potato Wholesale Prices & Arrivals trend in Consumption Centers
