

### Potato Fundamentals:

- In U.P, by November end approximately 92% potato crop is expected to release from a total storage of approximately 112 lakh ton.
- In West Bengal, approximately 90% of potato has been released so far from a total storage of 55 lakh tons this year compared to 94% in 2015 from a total storage of 64 lakh tons.
- In West Bengal, rabi sowing is approximately 85% completed so far and rabi acreage is estimated to be lower than previous year because of money crunch in the market which affected the farmers sowing area.
- Across the country rabi sowing is in progress and expected to complete in couple of weeks but potato acreage is expected to be lower than last year because later stage sowing was affected due to demonetization.

### Potato Wholesale Prices & Arrivals trend in Consumption Centers

Note: The above graph is made on data collected by Agriwatch through private sources because Agmarknet data are not consistent and lots of gaps in reporting.
