

Pulses Domestic Fundamentals:

- According to the local trader of Kanpur region of Uttar Pradesh, Lentil demand is lower than normal and millers are only doing need based buying. Stockiest are releasing their stock as new imported Lentil is expected from August onwards. However, stocks are lower as compare to last year at the same time period. At present lentil prices in Kanpur mandi is hovering around Rs 6250-6350 per quintal. Agriwatch expects prices to show range bound to slightly weak movement in the coming days.
- In order to curb rising prices of Chana, Government ordered NCCF (National Consumer Cooperative Federation) to sell Chana Dall at Rs 60/Kg through its outlets in Delhi. Government also decided to import 5000 tonnes of Chana through import. Under these developments Agriwatch expects prices to show some downward correction in the short term. However, overall inner tone remains firm in the medium term.
- Tur sowing started in Gulbarga region of Karnataka and trade source expects higher sowing area of tur this year as compare to last year as cotton area may shift in tur. At present Tur demand is lower than normal and stockiest are sidelined. Agriwatch expects tur prices to show steady to slightly weak movement in coming days.
- Continuous surge in chana price has impacted peas demand directly. Millers are engaged in need based buying because higher prevailing prices which also restrict stockiest to stock at current level. Stockiest are waiting for Canadian arrival expected in August onward. At present Peas price in Gwalior region of Madhya Pradesh is hovering around Rs 3400-3500 per quintal with arrival of 150 bags per day. Agriwatch expects pea prices to show steady to slightly firm movement in coming days due to good demand.
- Government procurement of pulses reaches at 1.19 Lakh tonnes so far and 14.3 Thousand tonnes of imports has arrived at various ports against the total contracted quantity of 46.0 Thousand tonnes. Government has decided to create buffer stock of 8 Lakh tonnes of pulses in order to control prices and ensure better supply for consumers.
- In order to restrict any upward movement of pulses, Odisha government has reduced currently applicable 5% Vat on pulses to 1% for three months. In past recent months prices of pulses remained boiling due to lower production estimate, reduction in VAT by 4% would help to cool down upward momentum.
- According to IBIS (provisional data), import of pulses in the week (20 June-26 June) was around 64.5 Thousand tonnes at major ports in India, around 39% lower than previous week's (13 June-19 June) import of 105 Thousand tonnes. Cow Pea, Lentil and Green Gram were imported higher this week whereas Chickpea, Kidney Bean, Black Matpe, Pigeon Pea Green Pea and Yellow Pea were imported lower as compared to last week.
- According to IBIS (provisional data), India moth imports were around 0.07 Thousand MT tonnes in the week (20 June-26 June) which is around 42% lower than last week (13 June-19 June).Last week it was 0.12 Thousand MT. At present, moth price in Jaipur market is hovering around Rs 5500-5600 per quintal.
- According to IBIS, India green pea imports were around 4.18 Thousand MT tonnes in the week (20 June-26 June) which is around 18% lower than last week (13 June-19 June).Last week it was 5.08 Thousand MT. Canada exported around 2.62 thousand MT at an average price of \$ 399.83 Cif per tonne. At present Green Pea price in Mumbai market is going around Rs 3100-3200 per quintal.
- In order to curb down prices and to maintain regular supply of pulses, Haryana government lowers down stock limit of pulses for traders, dealers and millers. Stock limit for wholesalers, distributing agents and selling agents has been reduced to 150 quintals from 250 and for retailers it has been reduced to 15 quintals from 25 quintals. Millers would be able to keep only 1/24th of total annual milling done for raw material and 1/48th of total annual milling done for finished goods.

Pulses International Fundamental:

- **According to the latest report, Canadian Lentil production estimate** for 2016-17 is expected to increase by around 37% to 3.25 MMT. Last year (2015-16) estimate is 2.37 MMT. Due to higher production, exports are forecasted to reach 2.4 MMT in 2016-17 from 2.30 MMT in 2015-16. Season ending stock is expected to increase from 0.07 MMT to 0.65 MMT. Farmer's average bids are likely to decrease from \$985/1015 to \$765/795 per tones in 2016-17 due to a more normal grade distribution and record Canadian supply. Farmer's average bid fall near \$45/tonne in June as compare to May report due to higher production estimate.
- **According to the latest report, Canada Pea Production estimate** for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.
- **According to the latest ABARES report, Australian Chickpea production forecast** 2016-17 is 1090 kilo tonnes which are around 8% greater than 2015-16 production estimate of 1013 kilo tonnes. Australia chickpea production forecast is higher due to increase in area and favorable weather condition till now. Australian chickpea harvesting starts from mid September and crops start hitting India market from October onwards.
- **According to the latest Saskatchewan Agriculture's weekly Crop Report**, pulses crop are developing faster than normal this year, with 20% of the crop ahead of normal and 76% at a normal state of development for the third week of June. The majority of the crops are in good-to-excellent condition though excess moisture is causing concerns in some areas. Harvesting of pulses generally begins in August and if the weather continues to be favorable hope for higher production of pulses increases this year.
- **According to the apk-inform, Russia pea export** during 11 months of 2015/16 MY (July-May) reached 6.95 Lakh tonnes which is around 89 higher than 2014/15 MY export of 3.68 Lakh tonnes. India imports of pea from Russia also increased to 0.70 Lakh tonnes from 0.65 Lakh tonnes.
- **According to the latest Statpub report, France pea export increased** by 210% to 42.16 Thousand MT in month of April from previous month of 13.60 Thousand MT and it is around 106% higher than 20.51 Thousand MT shipped during the same month last year. Total shipments clearance for ten months this year (July to April) is around 27.74 Lakh MT which is 105% higher than 12.06 Lakh MT shipped during the same month last year. Good demand from India and lower stock in domestic market due to lower production this year would continue to lend support to cash market in France and quotes are expected to remain stable to firm in the near term.

Canada Lentil Production Estimate
