

### Pulses Domestic Fundamentals:

- **Pulses: At JNPT (Mumbai) Port Container Report on July 25:** 47 Container of Pigeon Pea, 27 Container of Black Matpe, 148 Container of Mung, 66 Container of Chickpeas, 35 Container of Lentils, 42 Container of Yellow Pea, 20 Container of Green Peas, 12 Container of Red/Black Kidney Bean and 27 container of Brown/Black Eye Bean.
- In order to enhance the supply in the mandi and to curb down the prices, Central government asked States to remove local taxes on Pulses. They also have been requested to consider a pricing policy to set the highest selling price for pulses. This decision will help farmers to get better price for their product and regular supply for the consumer at lower rates.
- Agriwatch expects moong cash market to show steady to slightly weak movement due to lower demand and higher availability. Regular imports and higher sowing data released by government will not let moong prices to move northwards. According to latest Kharif sowing report released by Government as on 22nd July 2016, Moong area is recorded at 23.10 Lakh Hectares which is around 44% higher than at the same time period last year. Last year it was 16.06 Lakh hectares.
- As expected by Agriwatch Peas cash market has shown down movement last week. Agriwatch expects Peas prices to show weak movement due to lower future Peas contract has been offered by Canadian importers as they are expecting higher production this year. Demand also have fallen down as Millers are only doing need based buying and stockiest are also sidelined.
- According to latest sowing report released by Government as on 22nd July 2016, Tur sowing area is recorded at 35.90 Lakh Hectares which is around 53% higher than at the same time period last year. Last year it was 23.44 Lakh hectares. Maharashtra, Karnataka and Madhya Pradesh Tur sowing area was recorded at 12.66, 9.07 and 4.71 Lakh Hectares respectively.
- According to latest sowing report released by Government as on 22nd July 2016, Urad sowing area is recorded at 21.76 Lakh Hectares which is around 31% higher than at the same time period last year. Last year it was 16.64 Lakh hectares. Madhya Pradesh, Uttar Pradesh and Maharashtra Urad sowing area was recorded at 7.57, 3.75 and 3.81 Lakh Hectares respectively.
- MMTC invites tender to import 20,000 MT of Chickpeas (new crop) from Canada or Australia. Shipment period is from 15th October to 15th November, 2016 and should deliver 10000 MT each at Nhava Sheav/JNPT and Kandla port. Minimum bid is of 10000 MT and last date of submission of tender is 08th August 2016 and bid should valid till 16th August, 2016.
- According to IBIS (provisional data), import of pulses in the week (11 July-17 July) was around 74.2 Thousand tonnes at major ports in India, around 13% higher than previous week's (04 July-10 July) import of 65.8 Thousand tonnes. Chickpea, Lentil, Black Matpe, Pigeon Pea and Green Gram were imported higher this week whereas Cow Pea, Kidney Bean, Green Pea and Yellow Pea were imported lower as compared to last week.

**Pulses International Fundamental:**

- **According to the latest Saskatchewan Agriculture's weekly Crop Report**, 66% of pulses crop are at their normal developmental stages, 26 % is ahead of normal development and 8 % is behind normal development for this time of year. Lentils and pea crop in many parts are suffering from too much moisture and some crop damage is also recorded.
- **According to the latest report, Canadian Lentil production estimate** for 2016-17 is expected to increase by around 37% to 3.25 MMT. Last year (2015-16) estimate is 2.37 MMT. Due to higher production, exports are forecasted to reach 2.4 MMT in 2016-17 from 2.30 MMT in 2015-16. Season ending stock is expected to increase from 0.07 MMT to 0.65 MMT. Farmer's average bids are likely to decrease from \$985/1015 to \$765/795 per tonnes in 2016-17 due to a more normal grade distribution and record Canadian supply. Farmer's average bid fall near \$45/tonne in June as compare to May report due to higher production estimate.
- **According to the latest report, Canada Pea Production estimate** for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.
- **According to the latest ABARES report, Australian Chickpea production forecast** 2016-17 is 1090 kilo tonnes which are around 8% greater than 2015-16 production estimate of 1013 kilo tonnes. Australia chickpea production forecast is higher due to increase in area and favorable weather condition till now. Australian chickpea harvesting starts from mid September and crops start hitting India market from October onwards.
- **According to the apk-inform, Russia pea export** during 11 months of 2015/16 MY (July-May) reached 6.95 Lakh tonnes which is around 89 higher than 2014/15 MY export of 3.68 Lakh tonnes. India imports of pea from Russia also increased to 0.70 Lakh tonnes from 0.65 Lakh tonnes.
- **According to the latest Statpub report, France pea export increased** by 210% to 42.16 Thousand MT in month of April from previous month of 13.60 Thousand MT and it is around 106% higher than 20.51 Thousand MT shipped during the same month last year. Total shipments clearance for ten months this year (July to April) is around 27.74 Lakh MT which is 105% higher than 12.06 Lakh MT shipped during the same month last year. Good demand from India and lower stock in domestic market due to lower production this year would continue to lend support to cash market in France and quotes are expected to remain stable to firm in the near term.

### Canada Lentil Production Estimate
