

Pulses Domestic Fundamentals:

- **India imported 320012 tonne pulses during 14th to 20th Nov-2016, higher by 12 %** from previous week .It had imported **283426 tonne pulses** during week ended 13th Nov-2016. The highest quantity was of yellow peas out of total import during the week. India imported 212588 tonne yellow peas, 32530 tonne Tur ,2708 tonne Urad and 46012 tonne Chana. During this period .Besides, 19834 T Lentils has been imported. The rest were other pulses including kidney beans.
- **India imported 169 containers pulses at Chennai & Krishnapatnam ports** during 11 to 15th November-2016.It is lower by 33.46 % from previous week(7th to 10th Nov).Out of total containers Lentils share was recorded at 94 containers. Urad share was 40 containers and Tur Whole 16 containers. Green Moong and Green Peas contribution was 13 and 6 containers respectively. Import volume is likely to increase as three to four vessels are due in December.
- **Pulses Rabi sowing has crossed half way so far from normal of 121.38 lakh ha** and is running ahead by 6.53 % to 74.55 lakh ha from last year. Chana, the main Rabi pulses, area coverage has been registered at 53.73 lakh ha, higher by 2 percent from last year. Its normal area is 88.37 lakh ha. Weather remains favorable and sowing is expected to be over by mid December. Chana area may exceed from normal as prices are ruling higher. Higher MSP Rs 4000 per qtl. ,including bonus, too has encouraged farmers to grow more Chana this year.
- **Tur lemon in Mumbai is being traded at Rs 6400/6425 per qtl.Steady to** slightly weak tone may prevail in coming days. Urad quote remained steady at Rs 7500 per qtl. and may continue to trade stable. Chana is being traded at Rs 9100/9200 per qtl. Downward pressure continues as large volume of import expected in Nov/Dec. Chana price may continue to dip. Matar Canada is being traded at Rs2282/91 while Masur is being quoted at Rs 4950 to Rs 5200 per qtl. in Mumbai. Overall, sentiment in pulses market remains weak.
- **After 35000 T Australian Chana that landed at Mundra port on 13 Nov,MV HALIL SAHIN** carrying about 42000 T Australian Chana is expected to arrive on 24th Nov-2016.Other shipment from same origin carrying 23700 T Chana is expected to land Mumbai port on 7th December. These arrivals would ease supply side further and pressurize cash Chana market in India.
- **The second major rabi pulses is Lentils and its planting too is running smooth.** Out of normal area of 14.79 lakh ha. farmers have covered 6.49 lakh ha so far. It is 33.26 percent higher from last year till date. M.P, Uttar Pradesh and Bihar are major producers of Lentils. Despite demonetization, farmers are engaged to finish planting in time as prices rules higher, weather remains favorable and govt would procure Lentils if prices crases below MSP of Rs 3925 per qtl. in the season.
- **Peas planting too have increased considerably this year. Out of 8.37 lakh ha of** normal area farmers have planted 6.16 lakh ha so far, higher by 136 .92 from last year till date. Given the pace of ongoing planting peas area may cross from normal this year. The new crop would start hitting the market from jan end and it would build up pressure on price. Experts say that peas price may dip below Rs 2000 in the season. Currently, pea is being imported in highest volume.
- **Despite better progressive sowing status of Rabi season Urad lags behind** from last year by 11.24 percent to 2.21 lakh ha so far. Its normal rabi area is 7.54 lakh ha. Farmers had planted 2.49 lakh ha last year till mid Nov. The reason behind lower area under Urad is farmers preference to other short duration crops in rabi season. they have preferred to grow more spices and Chana this season. However, total coverage by the end of sowing season may reach near 7 lakh ha.
- **Farmers have decreased rabi moong area due to lower price of moong. It is** ruling below MSP(Rs 5225 per qtl.). It is being traded at Rs 4700 per qtl. in the market. Out of 8.65 lakh ha of normal rabi moong area only 0.55 lakh ha has been covered so far. farmers have used moong area in Chana, Lentils and peas amid other crops too. Coverage area is running behind by 34.52 % till mid Nov. Prices of moong is expected to stay steady in coming weeks as supply side is higher.
- **India imported 1002 containers pulses at JNPT port** as on 21th Nov-2016.Out of total major share was of pigeon pea. Around 874 containers of pigeon pea were landed. Chickpeas contribution was registered at 92containers. Lentil contribution was registered at 20 containers. Besides black eye beans contribution was only 3 containers .

Pulses International Fundamental:

- **Chickpeas import from US In India is increasing fast. India imported 20607 MT Chickpeas in Sept and Volume is expected to be higher in Oct. Data is awaited. Surprisingly, it is 73 % of total Chickpeas export from US in a month. Turkey and Spain brought the rest volume. The reason behind higher import from US is said to be crop loss around 70 % in Canada due to wet condition.**
- **Lentils import volume from US too increased to 19326 T, around 30.9 % of total lentil export in a month. India imported 74526 tonne dry peas from US too, 75.4 % of total dry peas export in a month. India imported 1.14 lakh tonne pulses from US out of total export of 1.9 lakh tonne. Higher import volume is likely to continue as prices in India still rules higher despite decreased price.**
- **Pulses prices in Canada have moved up in recent weeks. Lentils local quotes for Number 2 Laird varieties are currently hovering in the range of 48 to 61 cents per pound in Western Canada. Green pea prices range from C\$7.50 to as high as C\$9.00 per bushel.**
- **Farmers in Australia have been taking advantage of higher chickpea price. Drought affected crop and tight supply side have temporarily lent support to chickpea price from AU\$800 per tonne to AU\$1,000 per tonne. However, firmness would not sustain in the medium term once Indian crop starts hitting the market in Feb this year.**
- **This year production of Lentils in US is up by 136 % to 5.64 lakh tonne due higher planted area that increased by 90 % to 9.35 lakh acres. Actual harvesting has been reported 9.17 lakh acres. States like Montana, North Dakota, and the United States have recorded record area. Average yield is expected to be 1,356 pounds per acre, up 248 pounds from 2015.**
- **According to the latest update by market viewers in Australia, Lentil crop in some parts of western Australia has been affected by severe outbreaks of botrytis grey mould. Experts say that South Australia and Victoria alone have planted 2.5 lakh ha Lentil this year and out of this 50 % is said to be affected by this botrytis grey mould. Quality and yield is expected to be affected badly and it would reduce the final size of the crop.**
- **As per the latest ABARE update chickpeas production in Australia may increase to 12.34 lakh tonne in 2016-17. The production estimate for 2015-16 was 10.13 lakh tonne. Higher price of chana encouraged farmers to grow more chana and the trend may continue if prices continue to rule at higher level. Area under chickpeas is forecast to increase from 6.61 to 8.22 lakh ha in 2016-17. Lentil production too may move up from 2.58 to 3.65 lakh tonne for the same period.**
- **According to the latest report, Canada Pea Production estimate for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.**

Canada Lentil Production Estimate

	2014-2015	2015-2016[f]	2016-2017[f]
Area seeded (kha)	1,263	1,597	2,080
Area harvested (kha)	1,217	1,589	2,050
Yield (t/ha)	1.63	1.49	1.59
Production (kt)	1,987	2,373	3,255
Imports (kt) [b]	13	18	13
Total supply (kt)	2,786	2,756	3,343
Exports (kt) [b]	2,179	2,300	2,400
