Pulses Domestic Fundamentals:

- ***Pressure on Chana is likely to continue as prospect of bumper crop, lower*** *demand from retail markets and continuous import flow have weakened inner tonne in the market. Mumbai Chana decreased from Rs7400/7500 to Rs 6400 per qtl in last one week. Agriwatch expects prices to decrease to Rs5000/5200 per qtl. in the medium term. Other pulses like Mung, Tur are ruling below MSP despite procurement on MSP by govt.'s agencies at some parts of growing regions.*
- ***Weakening prices in pulses market have engulfed importers with fear of being*** *a defaultor. Pace of forward deals have slowed down as availability of pulses in domestic market is bound to increase in coming months. Stockiest are inactive as market is on descending path. Demand is lower and volume of trade in cash has declined considerably.*
- ***South Indian millers imported 233 containers pulses at Krishnapatnam and Chennai*** *during 1st to 5th January-2017.they had imported446 containers pulses previous week. Out of total 233 containers share of Urad was recorded at 94 containers. The second and third largest quantities were Lentils and Tur white(53 & 28 containers).The rest were other pulses like Chickpeas and Green Mung.*
- ***Mumbai Tur Lemon was traded at Rs 3450/4400 per qtl. while Urad FAQ was traded*** *at Rs 5900/6000 per qtl. Chana was traded at Rs 6400/6450 per qtl. Russian Matar traded at rs 2401 per qtl. Masur traded at Rs 4450/4550 while Australian Masur traded at Rs 4600 per qtl.*
- ***Burma CNF quote for old Tur was recorded at $630 for old crop and $635*** *for new one.Urad FAQ quotes decreased to $830 and SQ $900 per tonne. Mung Pediseva was quoted at $910 and Pakako at $610 per tonne. Overall sentiment remains weak in the short term.*
- ***Forward deals for Australian Chana for Jan end delivery has been*** *reported at $735/740 per tonne. Import flow is higher and deals for around 550 containers have been struck from Australia for Feb delivery.*
- ***Govt may start distributing dals through PDS at non- subsidized rate and a proposal*** *regarding this is being considered. States like Karnataka wants to sell dal through ration shop. Karnataka government has asked 10,000 tonnes of pulses for PDS purpose. Centre may offer the buffer stock of pulses to states at a subsidized rate and If at all we decide to offer pulses to states, it will be for sale via PDS as non-PDS item and rates will be not be subsidized. However, states may subsidized at their own cost. Govt has fixed target of 20 lakh tonnes as buffer stock for this year and it has already created a buffer stock of 8,00,000 tonnes so far. Out of 8 lakh tonne 4.06 lakh tonne has been imported.*
- ***According to AW estimate, lentil production for MY 2017-18 is expected to be*** *11.87 Lakh, higher by 14.13 % from last year. Last year it was 10.4 Lakh tonnes. As sowing has just over now, total area coverage might be finalized at 1650 thousand ha. Weather is good and crop condition is normal. At import front Lentils import from March 2016 up to Dec-2016 has been recorded at 6.71 lakh tonne, lower by 23.40 % from corresponding period last year due to higher prevailing price in global market. The Current MY may end up with 8 lakh tonne Lentils import.*
- ***Pulses Rabi sowing has crossed over normal area of 140.67lakh ha by 8.50 % so far*** *and is running ahead by 13.45 % to 152.63 lakh ha from last year(134.54 lakh ha) as on 06.01.2017. Chana, the main Rabi pulses, area coverage has been registered at 96.83 lakh ha, higher by 15.11 percent than last year. Its normal area is88.37 lakh ha. Weather remains favorable and sowing is almost over now. Higher MSP of Rs 4000 per qtl., including bonus, and attractive market price have encouraged farmers to grow more Chana this season. However, area in A.P. and Karnataka has decreased by 21 &30 % respectively. It will not make any difference as area has increased considerably in major growing states.*
- ***Out of total Rabi coverage under pulses, Lentils is running ahead by 18.11 % from 13****.86 lakh ha(last year till 06th Jan -2016) to 16.37 lakh ha, Peas up by 19.55 % from 9.26 to 11.07 lakh ha and Litherus by 5.93 % from 3.88 to 4.11 lakh ha. However Kulthi lagged behind by10.41 percent from coverage during corresponding period of last year. As sowing of Moong would continue in January too, normal area might be covered. Urad area too increased sharply from last week and is up by 6.59 % to 7.6 lakh ha. After kharif bumper Rabi production seems very much on the card now and it's started reflecting on price now.*
- ***AW preliminary production estimate for Chana for 2017-18 has been pegged at over 90*** *Lakh Tonne this year based on normal weather condition, around 13 % higher area coverage from last year and normal to good crop condition so far. The new season will begin with 1.6 lakh tonne as carry in. Higher production would increase total supply from 85.62(Current MY) to 96.81 lakh tonne in MY 2017-18.Import is likely to*

reduce by 50% from 10 lakh to 5 lakh tonne in 2017-18.The new season is likely to end with 3.95 lakh tonne as carryout. The new estimate is based on feedback received from farmers and initial field survey in some parts of major growing states. Emerging scenario hints bearish trend to continue in Chana market.

- ***India imported 283426 tonne pulses during21st to 26th Nov-2016, higher by 16.14** % from previous week .It had imported 244024 tonne pulses during week ended 20th Nov-2016. The highest quantity was of yellow peas out of total import during the week. India imported 193883 tonne yellow peas, 32699 tonne Tur, 7043 tonne Urad and 11358 tonne Chana during this period. Besides, 32206 T Lentils has been imported. The rest were other pulses including kidney beans.*

Pulses International Fundamental:

- ***Prairie Ag Hotwire data shows that Number 2 Laird lentils are currently being traded** at about 66 cents per pound in Western Canada. Yellow peas are being traded in the range ofC47.83 to C$9 per bushel. Kabuli Chana is currently traded at 70 cent per pound in western Canada. Agriwatch expects Indian import demand to decrease as new crop is in very good condition and would start hitting the market by Feb end. Chick peas and yellow peas demand from India would come down on the back of bumper bumper crop prospects. Besides, Supply of Lentils and peas in US is higher by 1.27 and 2.50 lakh tonne and US exporters would continue to sell actively to consume the accumulated stock.*
- ***According to latest US data regarding local supplies of pulses is higher than** previous year and it would continue to put pressure on global pulses price and would continue to affect Australian and Canadian pulses market too. Total Peas supply is around 2.5 lakh tonne higher than last year till date(Dec-2016 end).It was recorded at 7.56 lakh tonne against 5.02 lakh tonne last year. Lentils supply too has been recorded higher by 1.27 lakh tonne to 2.59 lakh tonne against1.32 lakh tonne last year. In 2015 it was only 91,000 tonne till date.*
- ***Canada Grain Association latest data shows that Canada has exported 56000 tonne** peas during second half of December and higher export pace is likely to continue. In current MY (till 30th December-2016) Canada has exported 18.8 lakh tonne peas,5lakh tonne higher by previous season till date. Green pea in western Canada is being quoted at C$7.5 to 8.5 per bushel. Yellow pea quotes range betweenC$6.85 to C$8.00 per bushel. Kabuli Chana is being traded at 53 cent per pound.*
- ***Matar production in Canada has been estimated at 48.35 lakh tonne for 2016-**17.It had produced 32.01 lakh tonne in 2015-16.the season started with 1.76 lakh tonne as opening stock while it was 6.84 lakh tone in 2015-16.Import too have increased from 16 to 29 thousand tonne in 2016-17.Thus total supply has been pegged at 50.40 lakh tonne against 39.01 lakh tonne last year. Total demand for this year has been pegged at41.60 lakh tonne against37.24 lakh tonne last year. The season may end with8.8 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at$260 to 290 per tonne, depending on quality.*
- ***Lentils production in Canada has been estimated at 32.48 lakh tonne for 2016-17.**It had produced 25.41 lakh tonne in 2015-16.the season started with 0.73 lakh tonne as opening stock while it was 3.65 lakh tone in 2015-16.Import too have increased from 16 to 75 thousand tonne in 2016-17.Thus total supply has been pegged at 33.96 lakh tonne against 29.21 lakh tonne last year. Total demand for this year has been pegged at 27.96 lakh tonne against 28.49 lakh tonne last year. The season may end with 6 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at$585 to 615 per tonne, depending on quality. Last year its average was $965 per tonne.*
- ***Laird 1 Lentils in Western Canada continued to inched up to 66 cents per pound,** almost 5 cents up from a fortnight ago Light Kidney beans dropped a little bit and its average bid comes to 43.5 cents per pound. Despite bad weather farmers in Australia expects 2 T per ha yield this year. The main problems for them were asochyta blight and water-logging issues. Delayed harvesting would delay shipment and New Indian crop would hit the market by end feb. This means they have two and a half months to ship their crop at higher prevailing price. India would not buy Chana from March. It is clear due to bumper production prospect this year. For Australia it would be very difficult to ship maximum marketable surplus in two months. So pressure on global domestic Chick peas market looms large.*

- ***Australia is exporting lentils to India at $680/85 per tonne while Canada is*** *offering lentils at $750 per tonne. Cheaper supply from Australia has put pressure on Canadian lentils quote. According to the Prairie Ag Hotwire, 1 Red Lentils in Western Canada decreased by one cent per pound last week. Bids ranged from 27 cents per pound at the lows to 34 cents at the highs. green pea is being offered in the range ofC$7.50 to as high as C$9.00 per bushel in Western Canada. Pressure would continue as supply side has eased and buyers are in bargaining seat now.*
- ***Despite current uptrend Lentils price in Canada is unlikely to*** *move northway in coming weeks. Currently it is being traded at 66 cents(CND) per pound. Laird 1 lentils are being quoted in the range of 61 to 66 cents per pound. Kabuli Chana is being traded at 64 to65 cents per pound. In Indian market there is a pressure on Lentils and Chana markets it may trade lower due to lower demand in local markets. Consumers are turning to green vegetables.*
- ***Farmers in Australia have been taking advantage of higher chickpea price. Drought*** *affected crop and tight supply side have temporarily lent support to chickpea price from AU$800 per tonne to AU$1,000 per tonne. However, firmness would not sustain in the medium term once Indian crop starts hitting the market in Feb this year.*

Canada Lentil Production Estimate

	2014-2015	2015-2016[f]	2016-2017[f]
