

Pulses Domestic Fundamentals:

- **Steady to weak tone prevailed in the market.** **Mumbai Lemon Tur opened at Rs 4600 per qtl while Urad traded at Rs5900 per qtl.** Actually, it might not be seen as uptrend. Market participants see it as a temporary correction and slightly improved demand from retailers at lower level. Besides, lower arrivals due to lower prices have helped market to trade up previousday. Chana traded down by Rs 100 to Rs6650/6700 per qtl. Chana from Tanzanian and Ethiopian origin too traded lower by Rs 150 & Rs 200 to Rs 6700 and 6500 per qtl. Matar traded at Rs 2501, higher by Rs 10 per qtl. Russian Matar traded at Rs2461 per qtl, almost steady at previous level. Canadian Masur traded at Rs 4450 to Rs 4600 per qtl. almost unchanged from previous level.
- **Hari Matar was quoted at Rs2950 to Rs 3050. Australian Masur was quoted at Rs4650 per qtl.** Agriwatch expects market to decrease once again. Supply from Rabi pulses is round the corner and pressure would build up from Chana, Lentil and Matar from end February. Crop condition is very good and bumper production seems very much on the card. Import of Chana continues from Australia and deal of 1200 containers have been struck for Jan, Feb and March delivery in the range of \$745 to \$770 per tonne. It may decrease to \$720/25 by mid Feb-2017.
- **At Nhava Sheva Port 104 containers of Chickpeas and 3 containers Chana Dal** from Australian origin landed on 17.01 2017 out of total 276 containers. More containers are expected in the 3rd and 4th week of Jan-2017. Large kabuli chickpeas (10 mm) are locked in a range of 63 to 70 cents per pound in Western Canada.
- **Burma CNF quote for old Tur was recorded at \$630 for old crop and \$635 for new one.** Urad FAQ quotes decreased to \$830 and SQ \$900 per tonne. Mung Pediseva was quoted at \$910 and Pakako at \$610 per tonne. Overall sentiment remains weak in the short term.
- **According to AW estimate, lentil production for MY 2017-18 is expected to be 11.87 Lakh,** higher by 14.13 % from last year. Last year it was 10.4 Lakh tonnes. As sowing has just over now, total area coverage might be finalized at 1650 thousand ha. Weather is good and crop condition is normal. At import front Lentils import from March 2016 up to Dec-2016 has been recorded at 6.71 lakh tonne, lower by 23.40 % from corresponding period last year due to higher prevailing price in global market. The Current MY may end up with 8 lakh tonne Lentils import.
- **Agriwatch expects market to stabilize near March.** **Tur, Mung and Lentils** should stabilize near Rs4400, 4500/4600 and 4000 per qtl. Chana may decrease to Rs5000/5400 per qtl. while Urad may stabilize near Rs5400/5500 per qtl. Matar is likely to trade near Rs 2000/2100 in March-2017. So it is better for stake holders to avoid bulk buying at this point of time. Only need based buying should be at priority. However, weather in /Feb/March-2017 would remain crucial for any uptrend.
- **Pulses Rabi sowing has crossed over normal area of 140.67lakh ha by 8.50 % so far** and is running ahead by 13.45 % to 152.63 lakh ha from last year(134.54 lakh ha) as on 06.01.2017. Chana, the main Rabi pulses, area coverage has been registered at 96.83 lakh ha, higher by 15.11 percent than last year. Its normal area is 88.37 lakh ha. Weather remains favorable and sowing is almost overnow. Higher MSP of Rs 4000 per qtl., including bonus, and attractive market price have encouraged farmers to grow more Chana this season. However, area in A.P. and Karnataka has decreased by 21 & 30 % respectively. It will not make any difference as area has increased considerably in major growing states.
- **Out of total Rabi coverage under pulses, Lentils is running ahead by 18.11 % from 13.86 lakh ha** (last year till 06th Jan -2016) to 16.37 lakh ha, Peas up by 19.55 % from 9.26 to 11.07 lakh ha and Litherus by 5.93 % from 3.88 to 4.11 lakh ha. However Kulthi lagged behind by 10.41 percent from coverage during corresponding period of last year. As sowing of Moong would continue in January too, normal area might be covered. Urad area too increased sharply from last week and is up by 6.59 % to 7.6 lakh ha. After kharif bumper Rabi production seems very much on the card now and its started reflecting on price now.
- **AW preliminary production estimate for Chana for 2017-18 has been pegged at over 90 Lakh Tonne** this year based on normal weather condition, around 13 % higher area coverage from last year and normal to good crop condition so far. The new season will begin with 1.6 lakh tonne as carryin. Higher production would increase total supply from 85.62 (Current MY) to 96.81 lakh tonne in MY 2017-18. Import is likely to reduce by 50% from 10 lakh to 5 lakh tonne in 2017-18. The new season is likely to end with 3.95 lakh tonne as carryout. The new estimate is based on feedback received from farmers and initial field survey in some parts of major growing states. Emerging scenario hints bearish trend to continue in Chana market.

- **India imported 283426 tonne pulses during 21st to 26th Nov-2016, higher by 16.14 %** from previous week .It had imported 244024 tonne pulses during week ended 20th Nov-2016. The highest quantity was of yellow peas out of total import during the week. India imported 193883 tonne yellow peas, 32699 tonne Tur , 7043 tonne Urad and 11358 tonne Chana during this period. Besides, 32206 T Lentils has been imported. The rest were other pulses including kidney beans.

Pulses International Fundamental:

- **Prairie Ag Hotwire data shows that Number 2 Laird lentils are currently being traded** at about 66 cents per pound in Western Canada. Yellow peas are being traded in the range of C\$47.83 to C\$9 per bushel. Kabuli Chana is currently traded at 70 cent per pound in western Canada. Agriwatch expects Indian import demand to decrease as new crop is in very good condition and would start hitting the market by Feb end. Chick peas and yellow peas demand from India would come down on the back of bumper bumper crop prospects. Besides, Supply of Lentils and peas in US is higher by 1.27 and 2.50 lakh tonne and US exporters would continue to sell actively to consume the accumulated stock.
- **According to latest US data regarding local supplies of pulses is higher than** previous year and it would continue to put pressure on global pulses price and would continue to affect Australian and Canadian pulses market too. Total Peas supply is around 2.5 lakh tonne higher than last year till date(Dec-2016 end).It was recorded at 7.56 lakh tonne against 5.02 lakh tonne last year.Lentils supply too has been recorded higher by 1.27 lakh tonne to 2.59 lakh tonne against 1.32 lakh tonne last year.In 2015 it was only 91,000 tonne till date.
- **Canada Grain Association latest data shows that Canada has exported 56000 tonne** peas during second half of December and higher export pace is likely to continue. In current MY(till 30th December-2016) Canada has exported 18.8 lakh tonne peas, 5 lakh tonne higher by previous season till date. Green pea in western Canada is being quoted at C\$7.5 to 8.5 per bushel. Yellow pea quotes range between C\$6.85 to C\$8.00 per bushel. Kabuli Chana is being traded at 53 cent per pound.
- **Matar production in Canada has been estimated at 48.35 lakh tonne for 2016-17.** It had produced 32.01 lakh tonne in 2015-16. the season started with 1.76 lakh tonne as opening stock while it was 6.84 lakh tonne in 2015-16. Import too have increased from 16 to 29 thousand tonne in 2016-17. Thus total supply has been pegged at 50.40 lakh tonne against 39.01 lakh tonne last year. Total demand for this year has been pegged at 41.60 lakh tonne against 37.24 lakh tonne last year. The season may end with 8.8 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at \$260 to 290 per tonne, depending on quality.
- **Lentils production in Canada has been estimated at 32.48 lakh tonne for 2016-17.** It had produced 25.41 lakh tonne in 2015-16. the season started with 0.73 lakh tonne as opening stock while it was 3.65 lakh tonne in 2015-16. Import too have increased from 16 to 75 thousand tonne in 2016-17. Thus total supply has been pegged at 33.96 lakh tonne against 29.21 lakh tonne last year. Total demand for this year has been pegged at 27.96 lakh tonne against 28.49 lakh tonne last year. The season may end with 6 lakh tonne peas that hints ample supply to continue through out the year. Prices are ruling at \$585 to 615 per tonne, depending on quality. Last year its average was \$965 per tonne.
- **Australia is exporting lentils to India at \$680/85 per tonne while Canada is** offering lentils at \$750 per tonne. Cheaper supply from Australia has put pressure on Canadian lentils quote. According to the Prairie Ag Hotwire, 1 Red Lentils in Western Canada decreased by one cent per pound last week. Bids ranged from 27 cents per pound at the lows to 34 cents at the highs. green pea is being offered in the range of C\$7.50 to as high as C\$9.00 per bushel in Western Canada. Pressure would continue as supply side has eased and buyers are in bargaining seat now.
- **Despite current uptrend Lentils price in Canada is unlikely to** move northward in coming weeks. Currently it is being traded at 66 cents(CND) per pound. Laird 1 lentils are being quoted in the range of 61 to 66 cents per pound. Kabuli Chana is being traded at 64 to 65 cents per pound. In Indian market there is a pressure on Lentils and Chana markets it may trade lower due to lower demand in local markets. Consumers are turning to green vegetables.
- **Farmers in Australia have been taking advantage of higher chickpea price.** Drought affected crop and tight supply side have temporarily lent support to chickpea price from AU\$800 per tonne to AU\$1,000 per

tonne. However, firmness would not sustain in the medium term once Indian crop starts hitting the market in Feb this year.

Canada Lentil Production Estimate

	2014-2015	2015-2016[f]	2016-2017[f]
Area seeded (kha)	1,263	1,597	2,080

Stocks-to-use ratio (%)	20	3	8
Average price (\$/t) [d]	260	360-390	300-330

Outlook: - Pulses prices are likely to trade steady to slightly weak as supply side is bound to increase despite lower arrival, improved retail demand and current uptrend. Australian Chana is being offered at Rs 6600/6700 in Mumbai. Lentil, moong and Tur may trade stable in the near term. Market is expected to get clear directional clue from end Feb/March.
