

### Pulses Domestic Fundamentals:

- **Mumbai Tur Lemon opened at Rs 4450/75 per qtl. Urad FAQ traded down by Rs 100 to Rs 5600 while SQ traded down by Rs 50 To Rs 6200/50 per qtl.** Imported Chana in Mumbai lost Rs 300/400 in a week and is being offered at Rs 5960/6000. It may decrease to Rs 5500 soon. In Peak arrival season it may trade in between Rs 5000 to 5400 per qtl. Tanzanian Chana is being quoted at Rs 6000 per qtl. It is being offered at Rs 5900/5950 at Mundra port. Canadian Masur is being offered at Rs 4400/4550 per qtl. Pressure on Lentils may continue ahead of better production prospects.
- **Rabi sowing of pulses has crossed normal area of 140.67lakh ha by 13.22 % till 27<sup>th</sup> Jan-2017** and is running ahead by 11.35 % to 159.27 lakh ha from last year (143.04 lakh ha) so far. Chana, the main Rabi pulses, area coverage has been registered at 98.82 lakh ha, higher by 10.75 percent than last year. Its normal area is 88.37 lakh ha. Weather remains favorable and sowing is almost over now. New Chana started hitting Amravati market. Despite higher coverage, area in A.P. and Karnataka has decreased by 15.65 & 30.30 % respectively. It will not make any difference as area has increased considerably in major growing states.
- **Out of total Rabi coverage under pulses, Lentils is running ahead by 21.64 % from 13.68 lakh ha (last year till 27<sup>th</sup> Jan -2016) to 16.64 lakh ha, Peas up by 17.43 % from 9.58 to 11.25 lakh ha and Litherus by 9.21 % from 3.91 to 4.27 lakh ha.** However Kulthi lagged behind by 11.08 percent from coverage during corresponding period of last year. As sowing of Moong would continue in January too, normal area might be covered. As of now it is 5.12% higher from last Rabi season. Urad area too increased last week and is up by 8.62 % to 7.94 lakh ha. After kharif bumper, Rabi production seems very much on the card now and it has started reflecting in price now.
- **Indian pulses importers at Mumbai had struck almost one lakh tonne pulses import deal at the end of Dec/First week of Jan this year from Australia for Jan -Feb delivery.** Out of total 19621.21 tonne Lentils and 27883 tonne yellow peas are expected to arrive Mumbai on 3rd Feb-2017. The import flow is likely to continue with same pace. Availability would increase and it may put pressure on prevailing price.
- **India imported 190 containers pulses at JNPT port** as on 27th January-2017. Out of total major share was of chickpea. Around 105 containers of chickpea landed at JNPT. Black Mapte contribution was registered at 35 containers. Besides, pigeon pea and green Moong contribution were registered at 35 and at 15 containers respectively. There was no import of green lentils or green peas.
- **According to AW estimate, lentil production for MY 2017-18 is expected to be 11.87 Lakh, higher by 14.13 % from last year.** Last year it was 10.4 Lakh tonnes. As sowing has just over now, total area coverage might be finalized at 1650 thousand ha. Weather is good and crop condition is normal. At import front Lentils import from March 2016 up to Dec-2016 has been recorded at 6.71 lakh tonne, lower by 23.40 % from corresponding period last year due to higher prevailing price in global market. The Current MY may end up with 8 lakh tonne Lentils import.
- **AW preliminary production estimate for Chana for 2017-18 has been pegged at over 90 Lakh Tonne** this year based on normal weather condition, around 13 % higher area coverage from last year and normal to good crop condition so far. The new season will begin with 1.6 lakh tonne as carryin. Higher production would increase total supply from 85.62 (Current MY) to 96.81 lakh tonne in MY 2017-18. Import is likely to reduce by 50% from 10 lakh to 5 lakh tonne in 2017-18. The new season is likely to end with 3.95 lakh tonne as carryout. The new estimate is based on feedback received from farmers and initial field survey in some parts of major growing states. Emerging scenario hints bearish trend to continue in Chana market.
- **India imported 283426 tonne pulses during 21<sup>st</sup> to 26<sup>th</sup> Nov-2016, higher by 16.14 % from previous week.** It had imported 244024 tonne pulses during week ended 20<sup>th</sup> Nov-2016. The highest quantity was of yellow peas out of total import during the week. India imported 193883 tonne yellow peas, 32699 tonne Tur, 7043 tonne Urad and 11358 tonne Chana during this period. Besides, 32206 T Lentils has been imported. The rest were other pulses including kidney beans.

### Pulses International Fundamental:

- **Laird 1 Lentils (large green) cash market price in Western Canada ranges 64 to 70 Canadian cents per pound** and farmers are delivering into plants at an average price of 68.42 cents per pound. However, Laird-2 prices are hovering in the range of 53 to 66 cents per pound. Medium green no-1&2 (Richlea) is being procured by plants in between 50 to 60 cents per pound. Small green is being traded at 59 to 66 cents per pound. Small red is being offered at 24 to 30 cents per pound. Prices of Canadian Lentils may decrease as import demand from India would weaken from February onward as new crop in India would start trickling in to the market. Indian crop size would be higher by 20 percent and crop is in very good condition.
- **Chickpeas prices in Western Canada too have eased slightly on demand -supply factors.** Bumper Indian crop over 9 million tonne, higher by 2.5 MMT from last year and good crop condition would discourage importers to continue Chana import at current price. It would affect Canadian Chick peas demand too. Australia has ample marketable surplus and it may take care of Indian demand by discounting price before March.
- **No-1 Grade Kabuli Chickpeas (10mm) in Western Canada is being delivered to plants in the range of 63 to 65 Canadian cents per pound.** Chickpeas having size of 9 & 8 mm are being traded at 55 to 65 & 48 to 60 cents per pound. 8mm price is hovering in between 30 to 47 cents per pound. No-2 grade Kabuli Chana (10mm) is being offered at 59/62 cents per pound and 9mm is being traded at 52 to 62.50 cents per pound.
- **Canada exported 10,800 tonnes of peas during the week ended January 15, bringing the total pea exports to date during the current crop year to 1.946 million tonnes,** according to Canadian Grain Commission data. While exports were down on the week, the overall pace is still ahead of a year ago, when 1.492 million tonnes were exported to-date.
- **Shipment of yellow peas from US To India decreased in November in comparison to Oct-2016.** However it increased for China, Pakistan and Mexico that nullified the impact of lower export to India. Green peas export from US increased in Nov and it exceeded yellow peas in Nov. It exported around 3.21 lakh tonne dry peas from June to Nov -2016.
- **At Lentils front too is similar we see same trend, higher acreage in 2016 has given supply double the volume of last year, but with US lentil export outpacing the last year's record setting volumes and domestic uses exploding, lentil stocks are at only 38% of US supply as per latest US News Letter.** In last six months US exported 1.82 lakh tonne Lentils. Canada has imported higher volume from US as its Lentils quality is not upto the mark and it blends US Lentils for value addition.
- **Chickpea exports continued to rise from US. Export volumes for September to November represent 28% of 2016 US chickpea production,** which is double the absorption rate for exports a year ago. Pakistan was the largest chickpea export market for the month of November. Total Chickpeas export from last six months from June to Nov-2016 was recorded at 81,000 T. As demand from India is likely to decrease from global market, import volume from all countries is bound to decline in coming months.
- **Prairie Ag Hotwire data shows that Number 2 Laird lentils are currently being traded at about 66 cents per pound in Western Canada.** Yellow peas are being traded in the range of C\$47.83 to C\$9 per bushel. Kabuli Chana is currently traded at 70 cent per pound in western Canada. Agriwatch expects Indian import demand to decrease as new crop is in very good condition and would start hitting the market by Feb end. Chick peas and yellow peas demand from India would come down on the back of bumper crop prospects. Besides, Supply of Lentils and peas in US is higher by 1.27 and 2.50 lakh tonne and US exporters would continue to sell actively to consume the accumulated stock.
- **Canada Grain Association latest data shows that Canada has exported 56000 tonne peas during second half of December and higher export pace is likely to continue.** In current MY (till 30th December-2016) Canada has exported 18.8 lakh tonne peas, 5 lakh tonne higher by previous season till date. Green pea in western Canada is being quoted at C\$7.5 to 8.5 per bushel. Yellow pea quotes range between C\$6.85 to C\$8.00 per bushel. Kabuli Chana is being traded at 53 cent per pound.
- **Matar production in Canada has been estimated at 48.35 lakh tonne for 2016-17.** It had produced 32.01 lakh tonne in 2015-16. The season started with 1.76 lakh tonne as opening stock while it was 6.84 lakh tonne in 2015-16. Import too have increased from 16 to 29 thousand tonne in 2016-17. Thus total supply has been

pegged at 50.40 lakh tonne against 39.01 lakh tonne last year. Total demand for this year has been pegged at 41.60 lakh tonne against 37.24 lakh tonne last year. The season may end with 8.8 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at \$260 to 290 per tonne, depending on quality.

- Lentils production in Canada has been estimated at 32.48 lakh tonne for 2016-17.** It had produced 25.41 lakh tonne in 2015-16. the season started with 0.73 lakh tonne as opening stock while it was 3.65 lakh tonne in 2015-16. Import too have increased from 16 to 75 thousand tonne in 2016-17. Thus total supply has been pegged at 33.96 lakh tonne against 29.21 lakh tonne last year. Total demand for this year has been pegged at 27.96 lakh tonne against 28.49 lakh tonne last year. The season may end with 6 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at \$585 to 615 per tonne, depending on quality. Last year its average was \$965 per tonne.

#### Canada Lentil Production Estimate

	2014-2015	2015-2016[f]	2016-2017[f]
<b>Area seeded (kha)</b>	1,263	1,597	2,080
<b>Area harvested (kha)</b>	1,217	1,589	2,050
<b>Yield (t/ha)</b>	1.63	1.49	1.59
<b>Production (kt)</b>	1,987	2,373	3,255

<b>Total supply (kt)</b>	2,786	2,756	3,343
<b>Exports (kt) [b]</b>	2,179	2,300	2,400
<b>Total domestic use (kt) [c]</b>	242	381	293
<b>Carry-out stocks (kt)</b>	365	75	650
<b>Stocks-to-use ratio (%)</b>	15	3	24
<b>Average price (\$/t) [d]</b>	585	985-1015	760-790

#### Canada Pea Production Estimate

	2014-2015	2015-2016[f]	2016-2017[f]
<b>Area seeded (kha)</b>	1,613	1,489	1,732
<b>Area harvested (kha)</b>	1,588	1,470	1,700
<b>Yield (t/ha)</b>	2.4	2.18	2.41
<b>Production (kt)</b>	3,810	3,201	4,100
<b>Imports (kt) [b]</b>	31	20	30
<b>Total supply (kt)</b>	4,170	3,905	4,230
<b>Exports (kt) [b]</b>	3,091	2,900	3,200
<b>Total domestic use (kt) [c]</b>	395	905	730
<b>Carry-out stocks (kt)</b>	684	100	300
<b>Stocks-to-use ratio (%)</b>	20	3	8
<b>Average price (\$/t) [d]</b>	260	360-390	300-330

**Outlook:** - Pulses prices are likely to trade steady to slightly weak as supply side is bound to increase despite lower arrival, improved retail demand and current uptrend. Australian Chana is being offered at Rs 6600/6700 in Mumbai. Lentil, moong and Tur may trade stable in the near term. Market is expected to get clear directional clue from end Feb/March.
