

Pulses Domestic Fundamentals:

- **Mumbai Tur Lemon opened up by Rs 50 to Rs 4200/4225 per qtl.** Fresh demand at higher level continued to support Tur market. Higher forward quotes in Burma supported this momentum to continue. Uptrend may continue in the short term as farmers are not releasing stock in bulk volume. Burma is offering Lemon Tur at \$605/10 per T on CnF Basis. Govt. may impose import duty to drive price up to MSP level by March end or offer other incentive to farmers to grow more pulses.
- **Urad FAQ traded Rs 100 up to Rs 5750/5800 and SQ at Rs 6450 in Mumbai market.** farmers have retained stock and higher quotes in forward deal at \$785 for FAQ variety and \$920/25 for SQ varieties supported urad price in domestic market. Imposition of duty on import is under consideration and it may support price in the short term. However, downward correction is expected by the end of this week.
- **Imported Chana in Mumbai traded up by Rs 25 to Rs 5150/5200.** Current firmness is based on increasing fear of lower crop size. Market expects Chana production not more than 82/83 lakh tonne against govt.'s estimate of 90 lakh tonne. Millers and stockiests are active to fulfill their immediate demand and it is supporting market. Rajasthan Chana in Delhi traded up by Rs 250 to Rs 5500/5550 per qtl. while MP Chana quoted at Rs 5300 per qtl. Downward correction is expected this week as bulk buyers are unwilling to buy at this level.
- **Canadian Masur is being offered at Rs3900 per qtl. and Australian Lentils are being offered at Rs4000 per Qtl.** Market is expected to move up a little bit more from current level as arrival pressure is yet to pick up. Besides, firmness in other pulses supports Lentils at current level. Downward correction is expected this week if weather condition remains normal in growing regions. Import flow continues from Canada.
- **Burma offers Lemon Tur at \$605 per tonne on CiF basis, up by \$20 from previous week.** Urad FAQ is being offered at \$780 and SQ at \$920 per tonne, Moong Pedisheva is being offered at \$970 per tonne While Pakakois at \$720 per tonne. Tur and Urad CNF offer has been increased. But demand at higher level has decreased. CnF quotes in Burma may stay steady in coming weeks. Lower demand from India may restrict Burmese quotes to move further up.
- **Lentils production this year is expected to increase by 14 to 15 % to around 12 lakh tonne this year.** Higher area coverage (16.50 lakh ha) supported by good weather condition so far, have increased prospects for bigger crop size. Crop condition is very good so far and new crop started trickling in Bidisha and Rajgarh in small quantity. Around 5000 bags arrived in Rajgarh. Bihar crop is expected to hit market by 15th March. Crop is in good condition as of now.
- **South Indian importers imported 321 containers at Chennai port in the week ended 15th Feb-2017,** lower by 15 % (382 containers) from previous week. Import flow is likely to decrease with commencement of arrival from Rabi crop likely to be bumper one after kharif crop. Major decrease was seen in Chickpeas import. It decreased from 105 to 29 containers. Lentils import too decreased from 39 to 29 containers. However, Black Mapte import increased slightly by 1.09 % to 185 containers. The rest were other pulses.
- **Lentils production this year is expected to increase by 14 to 15 % to around 12 lakh tonne this year.** Higher area coverage (16.50 lakh ha) supported by good weather condition so far have increased prospects for bigger crop size. Crop condition is very good so far and new crop started trickling in Bidisha and Rajgarh in small quantity. Around 3500 bags arrived in Rajgarh.
- **Govt. has released its 2nd Adv .Est of pulses for 2016-17 on 15th Feb-2017 and it shows higher production this year against target fixed for the year.** Production of Tur has been estimated at 4.23 MMT, higher by 16.85 % from fixed target and 65.23 % from last year production (2.56 MMT).
- **The 2nd Adv. est. for gram released on 15th Feb-2017 shows that its production may touch 9.12 MMT this year against the target of 9.6 MMT for 2016-17.** It is lower by 5 % from set target. However, it is higher by 29.17 % from last year crop size (7.06 MMT). Higher area coverage has encouraged govt to up production estimate. Crop condition is good and arrival pressure is expected by the end of this month. Prices of Chana may decrease to Rs 4500 per qtl. in peak arrival season.

Pulses International Fundamental:

- **As per latest Canadian Grain Commission data Canada has exported** around 43000 T peas during week ended 26th February-2017 and total figure for the year so far has reached at 21.9 lakh tonne, higher by 4.4 lakh tonne from last year till date. Farmers have supplied 28.5 lakh tonne so far against 20.6 lakh tonne last year. Number 2 Laird lentils currently top out at about 56 cents per pound in Western Canada, with new crop bids as high as 36 cents per pound. Red lentils are bid up to 25 cents per pound in the spot market and as high as 23 cents per pound for new crop. Large calibre (10mm) kabuli chickpeas are currently hovering around 47 cents per pound in Western Canada.
- **Canada has just revised up adv. estimates of average pulses prices for 2016-17** despite some downward correction in prices in recent days. Agriculture and Agro Food Canada (Govt. agency, AAFC). AAFC has estimated price for peas in between C\$290/310 per tonne while Lentils average price may hover C\$ 615 to 630 per tonne. Chana may hinge in between C\$910/ 930 per T. AAFC had estimated matar price to hover in between C\$ 280/310 per T. Chana and Lentils price projections were C4900/930 and 605/635 per tonne.
- **Canada Agriculture & Agro Foods has estimated 42.5 lakh tonne peas production for 2017-18**, lower by around 6 lakh to 48.36 lakh tonne in 2016-17. However, production estimates for Chana and Lentils has been revised up to 14.50 lakh tonne and 35 lakh tonne respectively. In 2016-17 Canada has produced 32.48 lakh tonne Lentils
- **The US latest report reveals that Chickpeas production in 2016 in US jumped** from 115350 tonne (2015) to 247,047 tonne. The reason behind higher production is said to be higher area coverage and above normal yield. Production of larger Chickpeas (8mm) increased from 72896 to 159,167 tonne. Smaller Chickpeas production too increased from 42457 to 87907 tonne. As production size has gone up, export volume too has gone up by 15 to 16 % this year.
- **The latest Grain Commission data shows that peas export volume from Canada increased by 20 %** so far this year to 2 MMT. Canada Peas exporters had exported 1.6 MMT peas last year till January-2017. Higher crop size and good weather condition throughout the growing season including higher area coverage increased crop size this year. Besides, higher demand from India helped export volume growing up. Marketable surplus is still higher as farmers have supplied 28 % more peas into the market so far. Total supplied quantity has touched at 2.5 MMT so far against 1.8 MMT last year by the end of January-2017. As Indian demand is likely to decrease due to new incoming domestic crop, Canadian peas quotes for forward months is likely to decline
- **Matar production in Canada has been estimated at 48.35 lakh tonne for 2016-17.** It had produced 32.01 lakh tonne in 2015-16. The season started with 1.76 lakh tonne as opening stock while it was 6.84 lakh tonne in 2015-16. Import too have increased from 16 to 29 thousand tonne in 2016-17. Thus total supply has been pegged at 50.40 lakh tonne against 39.01 lakh tonne last year. Total demand for this year has been pegged at 41.60 lakh tonne against 37.24 lakh tonne last year. The season may end with 8.8 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at \$260 to 290 per tonne, depending on quality.
- **Lentils production in Canada has been estimated at 32.48 lakh tonne for 2016-17.** It had produced 25.41 lakh tonne in 2015-16. The season started with 0.73 lakh tonne as opening stock while it was 3.65 lakh tonne in 2015-16. Import too have increased from 16 to 75 thousand tonne in 2016-17. Thus total supply has been pegged at 33.96 lakh tonne against 29.21 lakh tonne last year. Total demand for this year has been pegged at 27.96 lakh tonne against 28.49 lakh tonne last year. The season may end with 6 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at \$585 to 615 per tonne, depending on quality. Last year its average was \$965 per tonne.

Canada Lentil Production Estimate
