

Pulses Domestic Fundamentals

- **South Indian Importers imported 1355 containers pulses at Chennai and Krishnapatnam ports during 9 to 17th June-2017.** It is higher by 706 containers from previous week ending 8th June-2017. In the first week of June total 649 containers pulses were imported at same ports. Out of total 1355 containers the share of Black Mapte was 764 containers (previous week 313 containers). The share of lentils was 186 containers (127). Chickpeas stood third with 154 containers (70). Dun peas import increased from 10 to 78 containers during the same period. Green Moong bean import increased from 9 to 44 containers. Green peas and yellow peas remain almost steady at 17 and 13 containers. Higher volume of import remains restrictive for uptrend in the short term.
- **Pulses market traded down as expected due to mismatching demand and supply side.** Sellers are active and engaged in reducing stock ahead of GST. Tur lemon in Mumbai was traded at Rs 3550 per qtl. Urad FAQ was quoted at Rs 4800, up by Rs 50 from previous trading day. Chana was quoted at Rs 5300 while Oct/Nov quote was seen at Rs 5000 per qtl. Matar Canada was quoted at Rs 2211/21. At Mundra it was quoted at Rs 2271. Hari Matar was traded at Rs 2700/2800. Masur at Bahrich was traded at 4700. Overall tone in pulses market remains weak.
- **Actually buyers remain sidelined in directionless market. Money crunch, GST issue, import flow and weak demand from retailers have restricted market to recover.** Overall outlook in general remains weak. Selling from central pool stock too have increased supply.
- **Sudan pigeon pea was offered at \$555 per T at Nhava Shewa port. Australian Desi Chickpeas July and August delivery was offered at \$890 & 895 per T respectively.** The new crop Dec was offered at \$770 per T. Australian Kyabra Chick peas Nov/Dec was offered at \$790 per T. Australian Kasper Peas was traded at \$415 and Dun peas at \$390 per T. Australian Green Moong was offered at \$930 per T. Australian yellow split lentils was traded at \$845 July delivery. Canadian broken red lentil was offered at \$530 per tonne.
- **Urad FAQ was offered at \$718 and SQ was at 897 per T. Myanmar Lemon Tur was offered at 538 per T.** Australian red whole Lentils was offered at \$606 per T. Ukraine yellow peas at Nhava Sheva port was offered at \$315 CIF per T. It was offered at \$320 for Kolkatta port. Overall tone in pulses market remains weak.
- **The Center govt. has hiked the MSP of pulses for the 2017-18 crop year and instructed states to procure it on MSP so that farmers could be able to receive minimum support price.** The maximum hike in the MSP is fixed for pulses. The MSP of tur (arhar) is increased from Rs 5,050 per quintal (including bonus) in 2016-17 to Rs 5,450 per quintal (including Rs 200 bonus) in 2017-18 -- a hike of 400 per quintal. Similarly, the support price of Urad increased from Rs 5,000 (including bonus) per quintal in 2016-17 to Rs 5,400 (including bonus) per quintal in 2017-18. In case of Moong, it is increased from Rs 5,225 (including bonus) per quintal in 2016-17 to Rs 5,575 (including bonus) in 2017-18.
- **As per the latest data released by Agriculture Ministry shows that planting progress is lagging behind over 38 % in comparison to last year till date.** Till 16th June 2017 total coverage area under pulses was registered at 2.22 lakh ha against 3.63 lakh ha last year on corresponding date.
- **Indian importers imported 1336 containers of pulses at JNPT port on 13th June-2017.** With 439 containers Chickpeas contributed the highest quantity, followed by Lentils (308 containers), Pigeon peas 215 containers, Black Mapte 95 containers, Green Moong 79 containers, Green peas 47 containers, Yellow peas 29 containers and Moth bean 25 containers.
- **Burma offers Lemon Tur at \$539 per tonne on CiF basis. Urad FAQ is being offered at \$738 and SQ at \$918 per tonne, Moong Pedisheva is being offered at \$885 per tonne.** While Pakaois at \$695 per tonne. CnF quotes in Burma may stay steady in coming weeks. Demand from India may decrease due to higher availability in domestic market.

Pulses International Fundamental:

- **Canada exported only 600 tonnes of peas during week ended 11th June -2017.** However, total export till corresponding period is around 10 lakh tonne higher. Canada exported 32.35 lakh tonne peas in the crop year 2016-17 to date. Agriculture and Agri-Food Canada projects 38 lakh tonne export by the end of the current MY. It is higher by 2 lakh tonne from May estimate and Canada has exported 26 lakh tonne peas last year.
- **Agriculture Food Canada has projected 24 lakh tonne Lentils export in crop year 2016-17.** It is up by 1 lakh tonne from previous estimate. Premium large green lentil bids have decreased slightly about 42 cents per pound. New crop bids range from about 31 to 40 cents per pound. Red lentil bids range from about 23 to 26.5 cents per pound. Overall sentiment remains weak due to weakening of demand.
- **Chickpeas area in Australia has been forecast up by 2.99 % from previous year** to 1101 thousand ha for 2017-18 crop. It was 1069 thousand ha last year. However, production estimate has been decreased by 23.62 % to 14.16 lakh tonne against 18.54 lakh tonne last year. The main reason behind lower production forecast is mainly attributed to bad weather for planting. Australia had achieved highest yield last year due to favorable weather condition throughout the season.
- **Lentils area in Australia is expected to increase by 26 % To 385 Thousand Ha** in 2017-18. However, production size has been revised down to 5.30 lakh tonne. Australia had produced 830 lakh tonne Lentils last year. Bad weather is bound to affect lentils yield in Australia in 2017-18. Weather condition is still alarming and reduction in yield seems very much in sight.
- **Field Peas Area In Australia has been forecast down by 4.85 % to 219 thousand Ha** for 2017-18 crop due to lower price realisation and bad weather condition in producing states. Peas production estimate has been reduced from 415 to 257 thousand T. Australia had realized better yield due to congenial weather throughout the season. Canada's dominance in peas export at cheaper price and ample availability in India have affected global price of peas. So bad weather and weak demand/price encouraged farmers to lower peas area.
- **Pulses season (crop year) in Canada starts in August. Before starting the season.** Canada has revised down lentils production estimate from 31 lakh tonne to 28 lakh tonne now for 2017-18 season. According to the latest update by AAFC Canada has produced 32.48 lakh tonne Lentils in 2016-17. As production was at higher side, its export figure in current MY is expected to touch at 23 lakh tonne. India as usual emerged as major buyer for Canadian Lentils.
- **AAFC (Canada) has revised down peas production estimated from 42.50 to 41.50 lakh tonne** for 2017-18. In last one month production estimate has been revised down by 1.50 lakh tonne for next season crop due to lower prevailing price and weak demand from India and Pakistan. Canada had produced 48.36 lakh tonne peas in 2016-17. Local farmers may opt for other lucrative crops if prices continue to hover at lower level.
- **Export of Lentils and Peas from Canada continued to perform well during the last week of April.** Canada exported 76,200 tonnes peas and 12,300 tonnes Lentils during the review period. With this volume total peas export from Canada till April was recorded at 30.3 lakh tonne. It is almost higher by 10 lakh tonne during the same period last year. In case of Lentils total export was recorded at 700,600 tonne, higher by 1.1 lakh tonne till date.
- **Experts differ on Canadian pulses acreage for the crop year 2017-18. Notably, Canada** had produced record Peas and Lentils last year on the back of record area coverage. Survey based estimates of statistics Canada see Lentils area may vary from 3.9 to 6.1 million acres against 5.9 million acres covered last year. In case of Peas area estimate varies from 3.6 to 4.8 million acres against last year coverage of 4.2 Million acres.
- **Peas import from Ukraine to India is bound to increase over 50 % to 6.5 lakh tonne** in 2017-18 as bumper production seems very much on the card. Ukraine produced 7.45 lakh tonne peas last year. Area coverage has increased from 2.39 lakh ha to 2.9 lakh ha and with expected 3.16 tonne per ha yield production may touch 9 lakh tonne this year. It has exported around 3 lakh tonne peas in first eight months of 2016-17. Higher acreage would compensate likely acreage loss in Canada.

- **As per latest update By Canadian Market experts Chickpeas production in Canada** in MY 2017-18 may increase from 82,000 MT to 1.45 lakh tonne in 2017-18. Area coverage under Chickpeas too is likely to increase from 68,000 ha to 75,000 ha.
- **Matar production in Canada has been estimated at 48.35 lakh tonne for 2016-17.** It had produced 32.01 lakh tonne in 2015-16. The season started with 1.76 lakh tonne as opening stock while it was 6.84 lakh tonne in 2015-16. Import too have increased from 16 to 29 thousand tonne in 2016-17. Thus total supply has been pegged at 50.40 lakh tonne against 39.01 lakh tonne last year. Total demand for this year has been pegged at 41.60 lakh tonne against 37.24 lakh tonne last year. The season may end with 8.8 lakh tonne peas that hints ample supply to continue throughout the year. Prices are ruling at \$260 to 290 per tonne, depending on quality.

Canada Lentil Production Estimate
