

### Pulses Domestic Fundamentals:

- **Pulses market trades under pressure and there seems no respite for pulses market except govt.'s procurement at demand front.** Millers/ Stockists are engaged in reducing stock and unwilling to buy in bulk quantity. Besides, arrivals of Moong and Urad are continuously increasing. Even international market is under pressure due to lower demand from India. Overall tone in pulses market remains bearish.
- **Australia is offering Chana at \$795 per tonne at Indian port.** It is being quoted at Rs 5100/5150 at Indian port for Nov/Dec delivery. Even domestic market trades under pressure. Chana is ruling in the range of Rs 5000 to Rs 5400 per qtl. Agriwatch expects market to recover from current level by Rs 150 to Rs 200 as seed demand might support market in this week. However, overall tone remains bearish. Import would continue and area is expected to increase this year.
- **Lentils market too seems under pressure as imported stock is yet to be cleared out amid continuous import flowing in.** It (Canadian imported) is ruling in the range of Rs3200 to Rs3250 while in UP it is being traded at Rs3400 to Rs 3500 per qtl. As prices are ruling at lower level, Agriwatch expects it to stabilize at current level. Seed demand might support Lentils market to some extent. Australia is offering Red Whole Lentils at \$520 per Tonne for Nov delivery and Dec at \$515 per tonne at Indian port.
- **As Chana market is under pressure, there seems no respite for peas too.** Australia is offering Kaspas peas at \$363/365 for Nov/Dec delivery. More pressure is likely to build up on peas as there is ample stock available in the market and no of sellers are higher than buyers right now. Canadian peas at Mumbai is being offered at Rs 2060 per qtl. right now and it may dip down further from current level. Selling at improved level is good right now.
- **Burma is offering Lemon Tur at \$320 per tonne at Indian port.** In INR term it comes to Rs 20,800 per tonne. Urad FAQ from same origin is being offered at \$425 (Rs 27625/tonne) and SQ at \$540 per tonne (Rs 35100). Moong Pediseva is being offered at \$1200 per tonne while Pakako is being offered at \$780 per tonne (Rs 50700). Australia is offering Chickpeas (New crop) at \$795 per tonne on FoB basis for Nov/Dec delivery. Australian Kabuli chickpeas is being offered at \$1185 per tonne for Dec/Jan delivery. Australian Red whole Lentils (Nipper/Nugget type) is being offered at \$520/tonne for Nov delivery on foB basis. Nugget type Dec delivery is being offered at \$515 /tonne. Canadian broken Red Lentils are being offered at \$500 per tonne on CnF basis at Nhava Sheva for Nov delivery.
- **Kharif pulses sowings are almost over now. Indian farmers have covered 142.70 lakh ha as on 13.10.2017 against 147.95 lakh ha last year and year's normal of 105.58 lakh ha.** Area coverage is 3.55 % lower than last year. It is the final update for ongoing kharif season.
- **UP state govt. has decided to procure Moong and Urad from 15th Oct to 15th Dec-2017.** Beyond this date line farmers would not be able to sell their crops to govt.'s agencies. Tur procurement in UP would start from 15th January-2018. Maharashtra govt. too is gearing up for commencing Moong and Urad Procurement from next week. As prices are ruling lower than MSP, higher procurement is expected this year too.
- **Already over 3 lakh tonne Chana deals have been struck from old and new crop** and its scheduled delivery is due in Oct, Nov & Dec-2017. Mundra port will receive 50,000 tonne imported Chana from Australia by Oct. end. Around 54000 MT in Nov at same port. Besides, one lakh tonne will hit at Mumbai port in Nov. For Dec and Jan delivery almost one lakh tonne is expected on both ports.

**Pulses International Fundamental:**

- **As per latest update by USDA Peas production in USA would decrease by 45% to 697,043 tonne.** Rough weather condition has impacted yield of all pulses. Besides, hot and dry weather lower area coverage (17%) to 1.15 million acres contributed to lower overall crop size. Average yield has decreased by 703 pounds per acres to 1383 pounds per acre. It would be the lowest yield after 1996. Harvesting is almost over now in Montana and North Dakota. Crop faced extreme moisture stress from growth/flowering stage to harvesting stages.
- **Chickpeas production in Australia is expected to decrease by 35.92 % to 11.88 lakh tonne in 2017-18** from record 18.54 lakh tonne 2016-17. Despite 4.43 % higher area coverage production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1052 to 1099 thousand ha in 2017-18.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % 3.55 lakh ha. Due to rough weather condition Lentils production would decline to 4.19 lakh tonne. Even field peas production is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Production of Chickpeas in Queensland in Australia is likely to be lower by previous estimate of 0.65 Million tonne** as weather is not very congenial to the standing crop. Yield is expected to decline by 38 % from previous year. In 2017-18 area covered under Chickpeas was 5% higher than previous year to 5.6 lakh ha. The other major Chickpeas state is New South Wales where 4.78 lakh ha has been covered and production has been estimated 4.78 lakh tonne. It may be reduced further.
- **As per the latest report from Canada Grain Commission Canada has loaded 94,900 MT field peas for export** through licensed terminal and primary elevators in the month of August. Export volume is down by 67 % from 2.92 lakh tonne shipped during same period last year. Demand from India has decreased due to higher availability in domestic market.
- **Canada dry pea area is expected to decline by 3.44 % to 16.56 lakh ha in 2017-18.** Yield is expected to decrease by 14.63 % to 2.45 T per ha. Thus total production is expected to decline from 48 lakh tonne to 40 lakh tonne in 2017-18. As production is bound to decline, export volume too is expected to decrease from 38 to 32 lakh tonne in 2017-18. Total supply in Canada is likely to decrease from 50 lakh t to 41.50 lakh Tonne. Price of pea may rule in the range of \$280 to \$310 per T in 2017-18.
- **Lentils area in Canada is Bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Chickpeas production in Canada would decline slightly from 1.10 to 1.05 lakh tonne in 2017-18.** Average price of Chana is expected to decline from \$1000 to \$960-\$980 per T. Prices would decrease due to higher supply side in global market and bumper crop production in India last year. India is a major buyer of Masur from Canada and it imported around 6 lakh tonne masur last year. As availability is higher this year in India import would decline.
- **AAFC (Canada) has revised down peas production estimated from 42.50 to 41.50 lakh tonne for 2017-18.** In last one month production estimate has been revised down by 1.50 lakh tonne for next season crop due to lower prevailing price and weak demand from India and Pakistan. Canada had produced 48.36 lakh tonne peas in 2016-17. Local farmers may opt for other lucrative crops if prices continue to hover at lower level.

- **Peas import from Ukraine to India is bound to increase over 50 % to 6.5 lakh tonne in 2017-18 as bumper production seems very much on the card. Ukraine produced 7.45 lakh tonne peas last year.**

**Overall Outlook:** - Pulses market may trade steady to weak.

#### Canada Lentils Production Estimate

Canada Lentils( Crop year is August-July.)	2015-2016	2016-2017[f]	2017-2018[f]
Area seeded (kha)	1,633	2,372	1,783
