

Pulses Domestic Fundamentals:

Today's Update:

- **Chana prices improved slightly due to rains and hailstorms in some growing belts of Pulses in Rajasthan and MP.** Loss is being analyzed. Despite some news of loss ,late sown crop is likely to be benefitted by current shower of rains. So, current improvement in chana price is unlikely to continue. However, if hails storm is spread at larger area and continues, damage for crop approaching at maturity stage may increase and it may affect pulses price in coming weeks. Futures may move further up in the near term.

Previous Update:

- **Overall rabi area is unlikely to match last year's level as sowing is almost over now for chana, lentil and pea.** Urad and moong sowing would continue. Rabi pulses area decreased by 5.74 % at 155.12 lakh ha against 165.12 lakh ha last year as on 08th Feb-2019.Chana area is lagging by 10.02 % at 96.50 lakh ha against 107.40 last year. Farmers have covered 1.72 % lower area under lentil so far at 16.91 lakh ha against 17.23 lakh ha last year. Pea area is up by 11.36 % at 10.43 lakh ha. Urad area is lagging by 10.83 % at 8.79 lakh ha against 9.45 lakh ha last year. Moong area too is down by 6.12% at 7.17 lakh ha against 8.36 lakh ha so far.
- **DGFT has directed customs not to clear any pulses import shipment on ports in any case.** Due to this around two lakh tonne pulses might be halted at ports.
- **Despite firm tone tur and urad market may trade lower due to increasing possibility of release of 1200 to 1500 containers imported before 21st Jan.** Some stockists too are willing to release their 20 % stock. Besides, arrival from new crop continues and recent rains have increased prospects of better yield from rabi crops. Some group of importers are planning to move to court against recent decision of DGFT regarding stay. So market may decrease by 150 to 200 again from current level.Rains in larger area and lower temperature is said to be beneficial to standing chana crop and yield in Rajasthan and MP might improve. New crop of chana is expected from mid March in MP and Rajasthan. So chana may move down after slight recovery.
- **Govt. has given approval to buy 34500 MT chana under PSS in Telangana state.** Procurement in this state would continue till March-2019. It has commenced from 1st Feb-2019. For Telangana 159.39 crores Have been allocated for chana farmers. Pressure on chana market continues and recovery in production in MP and Rajasthan seems very much in sight due to recent rains, lower temperature in night. Procurement activities in other states too May restrict downward trend. Overall trend in chana cash market is bearish. Pressure from new crop from MP and Raj might be felt from Mid March.
- **Lower crop size (35 to 36 lakh tonne),import restriction till 31st March-2019 and increasing interest of bulk buyers** would continue to support tur market and it may cross MSP soon. Govt has 4.5 lakh tonne stock. Besides, govt may import 2 lakh tonne from Mozambique in addition to 2 lakh tonne same quantity would be allowed for private trade, likely in the second half of the year. However, downward correction might be seen after general election. Govt has option to ease restriction, remove import duty. So price may come down in second half and may trade in the range of Rs 5200-6000.
- **India has imported 20675.20 MT of Lentil at an average CiF of \$420.77 per tonnes** during the month of December -2018. Fig is tentative and may be slightly up.Export figure is being assessed.
