

Pulses Domestic Fundamentals:

Today's Update:

- **Commodity market traded under pressure amid increasing tension between India and Pakistan.** If tension continues it would impact normal trading activities in bordering states. Overall tone in physical market remains weak.
- **As per market sources if imported containers of pulses are cleared, it may pressurize pulses market in coming days.** Around 1.25 lakh tonne peas and 1.5 lakh tonne urad and tur are waiting for clearance. As tur crop is lower, it would not affect market much. However, urad and pea market may trade lower. Trade community remains in wait and watch mood. Pressure on chana market continues as crop size is expected in between 87 to 90 lakh tonne. With ample stock in Nafed custody, recovery is unlikely in the near term. Even demand too is not up to the mark right now. Madras court decision is still awaited.

Previous Update:

- **Overall rabi area is unlikely to match last year's level as sowing is almost over now for chana, lentils and pea.** Urad and moong sowing would continue. Rabi pulses area decreased by 5.74 % at 157.67 lakh ha against 166.58 lakh ha last year as on 22nd Feb-2019. Chana area is lagging by 10.02 % at 96.59 lakh ha against 107.57 last year. Farmers have covered 1.72 % lower area under lentil so far at 16.93 lakh ha against 17.25 lakh ha last year. Pea area is up by 11.36 % at 10.45 lakh ha. Urad area is lagging by 10.83 % at 9.71 lakh ha against 10.07 lakh ha last year. Moong area too is down by 6.12% at 8.55 lakh ha against 8.96 lakh ha so far.
- **Despite ongoing procurement drive and lower crop size tur market remains under pressure** due to weak demand and availability of old crop at lower level. Stockists are releasing old crop. Tur market may dip by Rs 100-150 further as arrival in major markets are increasing. Overall view for tur market remains firm and it would move up again in the medium term. In Gulberga market Tur is being traded at Rs 5000 to 5300 while in Mumbai it is being traded at Rs4900-5000. On going procurement drive remains supportive.
- **Telangana govt has procured 70,300MT tur so far, while Karnataka has procured 52833.04MT, Gujarat 835.33MT, Tamil Nadu 51.55MT & Maharashtra 1051.99MT so far.** Total procurement from kharif-2018 has reached at 125137.44MT as on 21st Feb-2019. Maharashtra Govt would procure 2.5lakh MT tur this year.
- **Chana markets seems under bears grip and cash market continues to reel under pressure.** Buyers are inactive at current price while sellers seem active despite lower projected crop size this year. New arrival is expected to increase in MP, Rajasthan from Mid-March and it would pressurize market further. However, lower crop size and likely improvement in demand from mid-March, supported by procurement drive may push chana price up in cash market from mid March. Buyers should buy around Rs4000 and hold it for two-three months. In normal condition market would move to Rs4500-4600 in April/May. Import is not possible. Sudan offers chana at Rs3900 at Indian port and some buyers are active. It hints market to move up again. In Delhi market chana is being traded at Rs 4200-4300. It may come down to Rs4000-4100 in March.
- **The Madras High Court completed hearing on importers plea against DGFT order over restriction on pulses import yesterday.** It is said that court has allowed pulses importers to take delivery with 10% bank guarantee of invoice value. The court will give its final order on Monday. As per clearing agent custom would take time of around 8 or 10 days to complete delivery procedure.
- **India imported 23667.99 MT chickpea in Jan-2019, down by 4.98 % from Dec-2018.** Chickpea has been imported at an average monthly CiF of \$617.39 per MT. India had imported 24908.95MT in Dec. Total chickpea import from March-18 to Jan -19 was registered at 140664.6 MT. Against it export was registered at 274201.15 MT in last 11 months.
- **Urad import in Jan-2019 increased from 42860.81 to 58043.54 MT, up by 35.42 % from Dec-2018.** From Aug to Jan-2019 India imported total 339965.28 MT urad at an average monthly CiF of \$634.19 per MT. It has been imported at \$632.06 per MT in Dec. Urad import has already crossed fixed limit of 1.5 lakh tonne. However, the volume is likely to decline now as clearance at port is difficult now.
- **Govt. has given approval to buy 34500 MT chana under PSS in Telangana state.** Procurement in this state would continue till March-2019. It has commenced from 1st Feb-2019. For Telangana 159.39 crores have been allocated for chana farmers.

Pressure on chana market continues and recovery in production in MP and Rajasthan seems very much in sight due to recent rains, lower temperature in night. Procurement activities in other states too may restrict downward trend. Overall trend in chana cash market is bearish. Pressure from new crop from MP and Raj might be felt from Mid March.

Pulses International Fundamental:

- **Lentil production in US is slightly down to 381384 MT against 339381 produced last year.** Earlier USDA had projected 398384 MT. Despite lower area coverage by 1.1 million acres, production increased due to better growing condition this year. Average yield increased from 678 pounds per seeded acre to 1,078 pound per acre. US mostly produces green lentil and it is facing challenge due to surplus production in Canada and other parts of the world.
- **Stock of lentil and field pea is comparatively higher in Canada.** At the end of 2018 stock of lentil in Canada was 2.04 MMT and field pea at 2.5 MMT as per statistic Canada. data released on 5th Feb-2019 shows that lentil stock in Canada was down slightly from 2.11 MMT for lentil and from 2.82 MMT for Pea compared to 2017. Relatively higher stock for 2019 would continue to pressurize lentil price in world market in absent of big market like India. trade volume remains thin.
