

Pulses Domestic Fundamentals:

Today's Update:

- **Lentil arrivals are not creating much pressure on prices. However, lentil stockiest are selling** their old stock at higher levels due to which lentil market is breaking frequently. If the market keeps on breaking frequently than imports would be difficult. This would provide support to domestic market prices. Lentil arrivals are not creating much pressure on prices. However, lentil stockiest are selling their old stock at higher levels due to which lentil market is breaking frequently. If the market keeps on breaking frequently than imports would be difficult. This would provide support to domestic market prices.
- **Despite lower arrival chana in Delhi market stayed steady at Rs 4300-4400 per qtl.** Farmers have restricted release of chana as prices are ruling below MSP in open market. Procurement pace remains slow. It is likely to pick up in after 20th April. So improvement in chana price is expected once procurement drive speeds up. Besides, lower production this year and restricted pea import may helpful for chana in coming months. Consumption may increase due to lower availability of pea this year. Agriwatch expects price to move up in the second half of the year. Nafed has procured only 38,177MT chana so far.
- **Tur price too stayed steady and pressure is on tur cash market due to higher arrival against weak demand.** Procurement drive is on but with a slower pace. Prices are expected to trade range bound until arrival decreases. In Gulberga market tur is being traded at Rs5100-5400 per qtl. It may decrease by Rs 100 more from current level. Nafed has procured around 2.38lakh MT Tur so far.

Previous Update:

- **Nafed has procured over 38,000 MT Chana on MSP so far. Out of total procurement maximum** buying (34,500 MT) was registered in Telangana. The procurement pace is likely to increase in Raj & MP from next week. As farmers are not getting MSP, arrival has not been up to the mark so far. Notably, the centre govt. had decided to procure 25 % of pulses out of total production. However, in MP procurement target for chana and masur has been fixed at 22% and 15%. At this fixed target MP Govt would procure 1,10,600 MT masur and 11,48,750 MT chana in MP. Total procurement target for chana has been fixed at 22,24,823 MT against 27.24 lakh MT last year. Govt would procure total 2,81,166 MT masur this year.
- **DGFT has re-set pulses import quota at 6.5 lakh MT for 1st April-2019 to 31st March-2020.** As per the latest notification Moong, Urad and pea quota has been fixed at 1.5 lakh MT each for new financial year. Besides, for tur it has been fixed at 2 lakh MT for the whole year. This means import volume would remain restricted and it would support cash market price in coming weeks.
- **The Madras High Court has upheld the validity of the DGFT order to ban pulses import in the country.** The honorable court has dismissed the writ petitions of importers against the DGFT and held the stand of the latter related to banning of import of pulses. The decision is very crucial and would help pulses market to recover.
- **Urad cash market is bound to go up due to import cap at 1.5 lakh MT for the whole year, starting from 1st April-2019 to 31st March-2020.** No new crop is due now. Next new arrival (big crop) is expected only in Sep. Before this green urad (smaller crop size) would hit market from MP and Uttar Pradesh but mostly would be consumed in Dholpur. Currently, there is no parity for Delhi from Kota and Chandausi line. So, FAQ moved up by Rs 100 to Rs 4550-4600 and SQ to Rs 5500-5550. After a slight downward correction urad may move further up by Rs 200-300. Stake holders should buy on dip and hold stock.
- **New crop of moong from UP and Bihar is expected to hit market by end April/May.** So, cash moong market may move further up by Rs 200-300 as old stock is decreasing and demand from mills have improved. Besides, import too is not possible as there is no parity at current price. Moong in Jaipur market may touch 6400/6500 per qtl before arrival from UP. In the latest development, Nafed would start selling moong from 1st April and it may cap one way upward movement. Procurement too is on in restricted way from rabi crop.

Pulses International Fundamental:

Today's Update:

- **India has extended 50% duty on pea import for 12 months and it may impact Australian pea area this year.**Pea import quota has been fixed at 1.5 lakh MT for the whole year with applicable duty of 50%.Under emerging scenario it would be very difficult for exporters to export pea in India.It would affect pea price badly in global market in coming months. Pea production in Australia may drop 45 to 50 % In 2018-19 season.

Previous Update:

- **As per USDA seeding intension report dry pea area in US is expected to increase by 3% to 8.81 lakh acres.** The latest report shows that dry pea area is expected to rise in Idaho, Montana, South Dakota, and Washington. However, area would decline in Nebraska and North Dakota slightly from last season.
- **Demand for Chickpeas in Canada & US has improved slightly and it may help market to recover from current level.** However, India may pose a tough challenge in large and medium caliber markets. India export chickpea from Feb to June as new crop starts hitting the market from mid Feb and there is a plenty of availability in India during this period. Mexico too would pose competition from March end. So, It would not easy to sell chickpeas at good price for any country
- **As per Canada Grain Commission Canada has exported 91,200 MT lentils in Feb-2019 against 99,700 MT in Jan-2019.** Canada had exported 51,200 MT in Feb-2018.Despite weak demand from India lentil export from Canada increased to 383,100 MT during the whole marketing year till Feb-2019.It was 180,700 MT last year during same period.
- **Production of lentil in Canada is expected to decrease by 4.39 % to 20 lakh MT in 2019-20 aginst 20 lakh tonne in 2018-19.**Yield for the year has been pegged slightly up at 1.5 MT per ha against 1.4 MT /ha last year. However total supply is expected to decrease from 29.89 to 28.20 lakh MT due to lower production pegged for 2019-20.Export has been pegged at 18 lakh tonne almost unchanged from 2018-19. Carryout is likely to decline from 7.0 lakh Mt to 5.35 lakh MT in 2019-20.Stock to use ratio is expected to decline from 31 to 23 % in 2019-20. Price is likely to hover in the range of \$ 390 to 420per MT in 2019-20.
- **Production of Chickpeas in Canada is expected to decrease by 116.39 % to 1.30lakh MT in 2019-20 agisnst 3.11 lakh tonne in 2018-19.**Yield for the year has been pegged slightly down at 1.76 MT per ha against 1.77 MT /ha last year. However, total supply is expected to increase from 3.37 to 3.48 lakh MT due to higher carryout for 2019-20.Export has been pegged at 1 lakh tonne almost unchanged from 2018-19. Carryout is likely to increase from 1.7 lakh Mt to 1.8 lakh MT in 2019-20. Price is likely to hover in the range of \$ 520 to 550 per MT in 2019-20.
- **Lentil production in US is slightly down to 381384 MT against 339381 produced last year.** Earlier USDA had projected 398384 MT. Despite lower area coverage by 1.1 million acres, production increased due to better growing condition this year. Average yield increased from 678 pounds per seeded acre to 1,078 pound per acre.US mostly produces green lentil and it is facing challenge due to surplus production in Canada and other parts of the world.
- **Chickpea production in Australia has been forecast at 330 thousand MT for 2018-19 against 1148 thousand produced in 2017-18.**Faba bean production too has been estimated at 214 thousand MT against 330 last year. Field pea production has been pegged at 194 thousand MT against 289 in 2017-18.Lentil production estimate too has been pegged at 343 thousand MT against 485 thousand MT. However, Lupins production estimate has been pegged higher at 710 thousand MT for 2018-19. It was 631 last year.

Weekly Outlook: -Pulses are likely to trade firm
