

## Pulses Domestic Fundamentals:

### Today's Update:

- **Pulses price movement would depend on monsoon progress and result of Lok Sabha election** due on 23 rd May-2019. Pulses traded firm during last two weeks and tur crossed all barriers and traded above MSP (Rs 5675) in various markets. It is still ruling up. However, all other pulses tried to touch MSP but could not touch its MSP level. If sitting govt. is elected once again, market may stabilize as Govt would not allow market to cross beyond a certain level.
- **In AP monsoon rains are expected in the second week of June and farmers may start planting** of various kharif crops including pulses from mid-June. Good rainfall would ensure better area coverage for cash crops. If there is deficient rains and planting got delayed, it would push pulses price once again. Weather departments of Japan, America and Australia have forecast lower rainfall this year due to emerging El-Nino condition. Central India may get 91% of normal rainfall while in other region it may even lower. Now forecast from IMD is awaited and it is due in the second week of June.
- **Production of rabi pulses in last season has been lower and if planting gets hampered** due to lower rainfall in kharif season, it may fuel pulses price. Most parts of excess old stock has been consumed and supply-demand side is almost balanced right now. But one bad kharif season may distort market. Now market is awaiting monsoon rainfall.

### Previous Update:

- **Myanmar offered lemon tur at \$745 per MT from new crop expected to be harvested** by June end while old crop is being offered at \$685 per MT basis Indian ports. linkly is being offered at \$700 per MT. Urad FAQ and SQ were offered at \$590 and \$710 per MT. Chana kabuli is being offered at \$680 and Hollan at \$655 per MT. Moong Pakaku is being offerd at \$800, red rajma at \$1060 per MT basis Indian ports. Pakistan is active in Myanmar's urad market while Indian buyers have started query in overseas market. As supply side is expected to contract in the second half of the year, Indian importers/mills might strike some import deals in coming weeks.
- **Nafed. has sold 216174 MT moong through online auction so far in Rajasthan ,MP and Karnataka.** It had procured 261004.7 MT. This means it has still 44830.76 MT moong in stock. It is 82.83 % of procurement. It has sold 3180 MT moong during last two weeks at Rs5761 & Rs5826 per qtl. In Chomu it has sold 90 MT at Rs 5800, 310MT at Rs5761 in Kishangarh, 260MT at Rs 5826 in Dooni, 700 MT at Rs5790 in Mandalgarh and 1820MT at Rs5802 in Chomu.
- **Procurement agencies have procured total 26195.94 MT chana till 7th May-2019.** Out of total procurement Madhya Pradesh has contributed 165013.46 MT. Rajasthan has contributed 44138.57 MT. Total procurement in Telangana has been registered 34500 MT so far. Maharashtra, Gujarat and AP have contributed 9298.37, 8674.44 & 329.10MT respectively so far. Procurement in UP and Karnataka is yet to begin. As procurement pace is about to increase, chana price is expected to move up from current level. However, any spike is unlikely as there is plenty of stock in central pool and cold. Chana in Delhi market is being traded at Rs 4450-4500 per qtl. Current spurt in cash market is mainly attributed to increase pace of procurement and increasing holdings by private trades.
- **As per latest update, normal demand from stockiest and higher arrival from** producing regions led lentil price to become weak by Rs 25-50 per quintal. Fall in price of lentil had a direct impact on lentil dal prices, which fell by Rs 50-100 per quintal and traded around Rs 4900-5000 per quintal. Lentil container and vessel at port are being quoted at Rs 4150-4200 per quintal and Rs 4000-4050 per quintal. Prices are likely to recover from this level in upcoming weeks. NAFED has purchased 3944.57 Metric Tonnes of lentils from Madhya Pradesh.
- **As per market sources the import quota for pea may be increased by 50000 tonnes.** The current restriction allows an import of 1.5 LMT of peas (Yellow peas, Green peas, kasper peas and Dun peas) during 01st April 2019 to 31st March 2020. Agriculture ministry expects a production of 240.20 LMT in 2018-19 compared to 252.30 LMT in 2017-18. As a result pea prices have fallen by Rs 100 per quintal in past weeks.

## **Pulses International Fundamental:**

### **Today's Update:**

- *As per the latest data updates by Australia Bureau of Statistics chickpeas export from Australia declined considerably during March-2019. Australia exported 25364 MT chickpeas in March against 46866MT in Feb-2019. Australia has exported total 167043 MT chickpeas during the ongoing MY. It is down by 76 % from last year till March 2018. In March, India purchased 18525MT chana from Australia, followed by UAE 2170MT and Pakistan 2025 MT.*

### **Previous Update:**

- *As per the latest data received from Federal Customs Service of Russia export volume of chickpeas decreased by 18% to 24428 MT in the month of Feb-2019. It was 29,903 MT in Jan-2019. Russia had exported 6945MT in Feb-2018. Turkey brought 9,450 MT, followed by Pakistan (6,239 MT) & India (4,309 MT).*
- *Lentil export from Australia in April-2019 decreased by 33% to 17777 MT against 26716MT in March. It is 101798 MT throughout the season till April-2019 against 237305 MT till April-2018. Bangladesh, Egypt and Sri Lanka brought 7,105, 5,083 & 3,856 MT respectively.*
- *As per the latest update from Agriculture Canada Chickpeas production may decrease in 2019-20 to 1.30 lakh MT lower from 3.11 lakh MT from last year. Canada may seed 75,000 ha this year against 1.79 lakh ha last year. Export volume may touch 1 lakh MT in 2019-20 against 90,000 MT this season. In 2017 Canada had exported 1.16 lakh MT. Domestic consumption is expected to increase slightly from 65,000 to 68,000MT in 2019-20.*
- *Inclement weather in Ukraine may affect coverage area of pea and it may decrease by 20% to 3.47 Lakh ha. Due to quantities restriction in India production of pulses in major countries may decline this year. In this case if production decreases in India, prices of pulses may move up in domestic as well as global market too. So monsoon progress and actual rainfall would be major price drivers in weeks to come.*
- *Lentil area coverage for the 2019 crop year in US is expected to decrease by 29 % from last year to 555,000 acres. Area may decline in Montana and North Dakota. Planting intentions in Idaho and Washington are expected to remain unchanged from a year ago. Based on area estimate/intention, it would be the lowest since 2015.*
- *US farmers may plant 40% lower area under Chickpeas this year in US. As per pre sowing intention farmers may plant 5.19 lakh acres in 2019. They may plant 137,000 acres small chickpeas, 382,000 acres large chickpeas around 38 & 40 % lower than last year. It would be the lowest since 2016.*
- *As per USDA seeding intention report dry pea area in US is expected to increase by 3% to 8.81 lakh acres. The latest report shows that dry pea area is expected to rise in Idaho, Montana, South Dakota, and Washington. However, area would decline in Nebraska and North Dakota slightly from last season.*
- *Production of lentil in Canada is expected to decrease by 4.39 % to 20 lakh MT in 2019-20 against 20 lakh tonne in 2018-19. Yield for the year has been pegged slightly up at 1.5 MT per ha against 1.4 MT /ha last year. However total supply is expected to decrease from 29.89 to 28.20 lakh MT due to lower production pegged for 2019-20. Export has been pegged at 18 lakh tonne almost unchanged from 2018-19. Carryout is likely to decline from 7.0 lakh Mt to 5.35 lakh MT in 2019-20. Stock to use ratio is expected to decline from 31 to 23 % in 2019-20. Price is likely to hover in the range of \$ 390 to 420 per MT in 2019-20.*
- *Production of Chickpeas in Canada is expected to decrease by 116.39 % to 1.30 lakh MT in 2019-20 against 3.11 lakh tonne in 2018-19. Yield for the year has been pegged slightly down at 1.76 MT per ha against 1.77 MT /ha last year. However, total supply is expected to increase from 3.37 to 3.48 lakh MT due to higher carryout for 2019-20. Export has been pegged at 1 lakh tonne almost unchanged from 2018-19. Carryout is likely to increase from 1.7 lakh Mt to 1.8 lakh MT in 2019-20. Price is likely to hover in the range of \$ 520 to 550 per MT in 2019-20.*
- *Lentil production in US is slightly down to 381384 MT against 339381 produced last year. Earlier USDA had projected 398384 MT. Despite lower area coverage by 1.1 million acres, production increased due to better growing*

condition this year. Average yield increased from 678 pounds per seeded acre to 1,078 pound per acre. US mostly produces green lentil and it is facing challenge due to surplus production in Canada and other parts of the world.

**Weekly Outlook:** -Pulses are likely to trade steady to slightly firm.

**Rabi Sowing as on 22<sup>nd</sup> Feb-2019:**

Rabi Pulses Progressive Sowing Area Coverage Till 22.02.2019 ( Area in Lakh Ha)
