

Pulses Domestic Fundamentals:

Today's Update:

- **Cash masur market moved up by Rs 200 in last one week. Supply from major markets like Mungawali, Ganjbasoda, Sagar, Bhopal and Patna has decreased by 50 %.** Even tight supply side was seen in small masur. MMTC masur (moti) too moved up by Rs200 to Rs4300 per qtl. Arrival in KOTA and Bundi too have decreased. Builty price for moti masur was quoted at Rs 4750 .There is no parity from Gonda and Behraich line. Emerging scenario hints market to move up further despite flow of import.
- **There is a short supply of imported peas. Stockiest have brought desi matar in Lalitpur and Jhansi line at lower rate.** However, variety of desi matar are coming in markets of MP and UP. So, selling of imported matar (Canadian) got affected. Imported stock of Canadian and Ukrainean matar is depleting fast. So quotes increased by Rs200-300 at ports. However, buyers remain silent at higher level. As there is no loading for Canadian matar, tight supply side might be seen for imported pea. Any major correction is unlikely at this point of time.

Previous Update:

- **Pulses market continued to trade firm taking clue from firm futures and higher** quotes in global market. Demand for dal and fresh buying by mills have lent support to pulses market. Chana in Delhi market traded Rs100 up to Rs 4775-4800 in Delhi while Australian chana in Mumbai traded up by Rs 100 to Rs4650-4700.kabuli Sudan at Mumbai was offered at Rs4650.Market fundamental remains supportive to cash chana market and it may move further up by Rs 200 this week. At this level one good correction is expected.
- **Lemon tur in Mumbai market crossed the level of Rs 5750 and was traded at Rs 5800.**Fresh demand by mills and higher quotes in Myanmar amid restricted selling by domestic trades pushed tur market up. In Gulberga market tur traded at Rs 6000-6100 and it may move up further by Rs200. At this level, stake holders should book profit and wait for correction in market.
- **Against the market trend moong traded lower by Rs200-250. However, it is seen as** correction in the market .Moong would move up again as there is shortage of quality moong while next big crop is 3 months away from now. After formation of new govt, it would try to check inflation and may take action to control price of essential commodities. Pulses too would not be out of it. Nafed may start releasing stock. So stake holders should avoid buying at higher level at least for a week or two.
- **Tur market continued to trade firm and may move up further. Lower crop size in India, declining old** stock and lower availability of Tur sourced from African countries have helped market to trade above MSP first time after 2.5 years. Import has been restricted at 2lakh MT while govt would import 1.75 lakh MT. Besides, there is a scope of more import through G2G basis if prices moves beyond 6000 level.in Gulberga market tur is being traded at Rs5550-5750.overall tone remains firm.
- **Nafed. has sold 216174 MT moong through online auction so far in Rajasthan ,MP and Karnataka.** It had procured 261004.7 MT. This means it has still 44830.76 MT moong in stock. It is 82.83 % of procurement. It has sold3180 MT moong during last two weeks at Rs5761 & Rs5826 per qtl. In Chomu it has sold 90 MT at Rs 5800, 310MT at Rs5761 in Kishangarh,260Mt at Rs 5826 in Dooni,700 MT at Rs5790 in Mandalgarh and 1820MT at Rs5802 in Chomu.
- **Procurement agencies have procured total 26195.94 MT chana till 7th May-2019.**Out of total procurement Madhya Pradesh has contributed 165013.46 MT. Rajasthan has contributed 44138.57 MT. Total procurement in Telangana has been registered34500 MT so far. Maharashtra, Gujarat and AP have contributed 9298.37, 8674.44 & 329.10MT respectively so far. Procurement in UP and Karnataka is yet to begin. As procurement pace is about to increase, chana price is expected to move up from current level. However, any spike is unlikely as there is plenty of stock in central pool and cold. Chana in Delhi market is being traded at Rs 4450-4500 per qtl. Current spurt in cash market is mainly attributed to increase pace of procurement and increasing holdings by private trades.
