Previous Update:

- **Chana market could not sustain its upward momentum and decreased by Rs50 to Rs 4425** in Delhi market taking clue from weak futures. Demand remain restricted despite festive season. Market is well aware of Nafed stock. Cash market should improve once again and may trade at Rs 4400-4600 in Delhi market in coming weeks. Weak demand, liquidity issue and Nafed stock remain restrictive to cash chana market. Even futures remains un-supportive to cash market.
- **Tur market is likely to move up slightly due to recent loss of standing crop in Karnataka, Maharashtra and MP.** However, recent rains are considered too be beneficial to standing crop in upper land. As area is expected to be higher than last year, recent loss would be compensated by higher area and good rainfall in other growing regions. In Gulberga market tur is being traded at Rs 5850-5950 per qtl. It may move up by Rs 100-150 more from current level.
- **Even urad may trade up by Rs 100-200 from current level as stockiest have resorted** to retain stock sensing recent crop loss and lower availability in global market amid restricted import flow. In Chennai market urad moved up by Rs 100 to Rs 4700 and may touch 4800-4900 by the end of this week. At this level selling by private trades might be seen. Crop condition in UP, Rajasthan, MP and Gujarat in Upper land is very good.
- **Moong too may trade slightly up due to crop and quality loss in Karnataka and Maharashtra.** As sowing has been delayed by 20 days, arrivals are expected late by 20 days. It may help market to recover to a certain extent. Moong may trade in the range of Rs 6200 to 6400 in Jaipur market this week. At higher level demand from mills may got affected. Kharif area is almost lower by 10% to 29.09 lakh ha.
- **New early kharif urad crop from MP is expected to hit market by mid sep.** Crop condition is good so far. However, heavy rains, if continue, may damage urad crop in MP. As far as old stock in private hands is concerned, it is not enough to fulfil market demand despite 1.5 lakh MT import option till 31st oct-2019. However, Nafed still has 3.32 lakh MT stock. Out of total 3.14 lakh MT is old stock. It may restrict urad market to move one way up. If rains damage standing crop, it may move up by Rs250 to 300 from current level. New urad from Gujarat and Maharashtra too would hit market from second week of Sep. However, late sowing heavy rains may impact yield. Quality of imported urad is not good. So quality urad may move up in coming weeks. Urad from Chandausi line is expected in Nov.
